THE PARLIAMENT OF THE COMMONWEALTH OF AUSTRALIA

# COMMONWEALTH PAYMENTS TO OR FOR THE STATES, 1965-66

PRESENTED BY THE RIGHT HONOURABLE HAROLD HOLT, M.P., TREASURER OF THE COMMONWEALTH, FOR THE INFORMATION OF HONOURABLE MEMBERS ON THE OCCASION OF THE BUDGET 1965-66

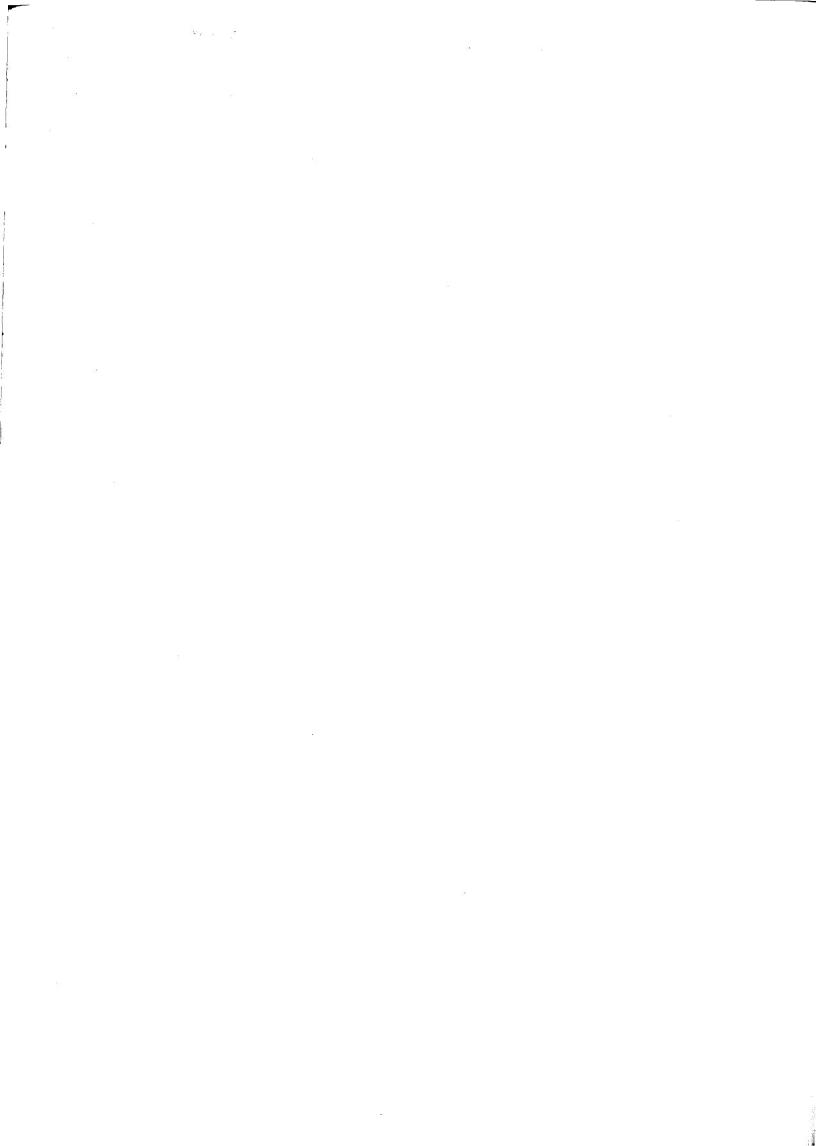

Presented by Command; ordered to be printed, 17th August, 1965

[Cost of Paper:-Preparation, not given; 775 copies; approximate cost of printing and publishing, £350]

Printed and Published for the GOVERNMENT of the COMMONWEALTH OF AUSTRALIA by A. J. ARTHUR, Commonwealth Government Printer, Canberra (Printed in Australia)

No. 185 [GROUP B].-F.10804/65.-PRICE 12S. (\$1.20)

....

# FOREWORD

This Paper provides a survey of payments made by the Commonwealth to assist the States. The text of the Paper sets out some historical background to the various payments and the tables contain figures in respect of earlier years. Details are also given of payments of interest and repayments of capital by the States in respect of loans made by the Commonwealth for specific purposes.

This document is a revised version of similar Papers issued in connection with the Budgets of recent years. A brief account of Commonwealth payments to or for the States is also given in Item No. 2 of Statement No. 3 accompanying the Budget Speech for 1965–66. A table showing the differences between the classification shown in this document and the classification in Item No. 2 is given on page 41.

For the sake of completeness and because of their importance in Commonwealth-State financial relations, the Paper also includes a section relating to Loan Council borrowing programmes.

# CHAPTER L-OUTLINE OF COMMONWEALTH ASSISTANCE TO THE STATES

Since Federation the Commonwealth has made payments of various descriptions to the States. Prior to World War II., however, Commonwealth payments were mainly of a marginal character and were confined, for the most part, to special grants to assist the financially weaker States and to certain specific purpose grants relating to such matters as Commonwealth assistance for roads and contributions under the Financial Agreement.

Since the second world war and the immediate post-war period there has been a marked increase in the amount and variety of Commonwealth assistance to the States. The main factors responsible for this change have been—

- (a) The introduction and continuation of uniform income tax, a brief account of which is given in Chapter II.
- (b) The increase in Commonwealth responsibilities, including participation in matters which were previously considered to be the sole responsibility of the States.
- (c) The rapid growth of the Australian economy and the resultant need to increase progressively the levels of State works and housing programmes.

In recent years direct Commonwealth financial assistance to the States has taken four main forms, namely-

- (a) Grants for general revenue purposes. These comprise the financial assistance grants (before 1959-60 the tax reimbursement and supplementary grants) and the special grants paid to the financially weaker States on the recommendation of the Commonwealth Grants Commission. Details of these grants are given in Chapter III.
- (b) Payments for specific purposes. These, with one or two notable exceptions, are of fairly recent origin. They may be divided into two categories—
  - (i) Payments for purposes of a revenue nature. These include contributions by the Commonwealth under the Financial Agreement towards interest and sinking fund in respect of State debt (see Chapter IV.), and a number of other payments by the Commonwealth to the States, of which assistance for universities is the largest (see Chapter V.).
  - (ii) Payments for purposes of a capital nature. These are intended to assist State Governments to make expenditures of a capital nature. The most important payment of this type is Commonwealth aid for roads (see Chapter VI.), but there are other payments for developmental and other purposes which fall into this category. These are described in Chapter VII.
- (c) Additional assistance grants. In addition to the grants for general revenue purposes and payments for specific purposes, the Commonwealth has on occasion made available to the States, by way of non-repayable additional assistance grants, further amounts of financial assistance to enable the States to deal with particular circumstances arising at the time. Details of these grants are given in Chapter VIII.
- (d) Assistance to borrowing programmes for State works and housing. Since 1951-52 the Commonwealth has made funds available as required to supplement the proceeds of public loan raisings for these programmes. Details are given in Chapter IX.

477

Commonwealth financial assistance to the States during 1964-65 and the estimates for 1965-66 are shown in Tables 1 and 2. Tables 3 and 4 show these amounts in per caput terms. Table 5 gives a summary of Commonwealth payments to or for the States, under the main categories, since 1951-52, and also shows the State works and housing programmes in each year since then, including amounts provided by the Commonwealth to supplement the proceeds of loan raisings available to meet these programmes. Table 6 shows for each State the amounts of Commonwealth payments and State works and housings programmes since 1951-52; in Table 7 these amounts are shown on a per caput basis. At the outbreak of the second world war, the financial resources available to the States were, for the most part, sufficient to enable them to meet their own expenditures principally from funds which they themselves were responsible for raising. Commonwealth payments to them, though they had increased over the years, were still relatively small and confined to a fairly narrow field, e.g., tiding the States over difficult periods, assisting the financially weaker States, or providing funds for purposes in which the Commonwealth had a common interest with the States.

The second world war radically changed this situation. To finance its greatly increased war-time expenditure, it was necessary for the Commonwealth to maximise its revenue from all sources. The incidence of State income taxes, which were then levied concurrently with Commonwealth income tax, differed widely between States and, since the Commonwealth is constitutionally forbidden to discriminate between States in the imposition of taxes, its rates were in practice limited by the scope available for additional tax in the State with the highest rate of tax at each income level. This, of course, meant that in other States there were large untapped sources of income tax revenue.

This problem was the subject of discussion between the Commonwealth and State Governments on a number of occasions during the early war years, but no mutually acceptable solution was reached.

# THE COMMITTEE ON UNIFORM TAXATION

On 23rd February, 1942 the Commonwealth Treasurer appointed a Committee to consider the questions of the Commonwealth becoming the sole income taxing authority for the duration of the war and of payments, by way of grants, to the States for their retirement from the income tax field.

The Committee presented its report on 28th March, 1942 and recommended that for the duration of the war and one year afterwards the Commonwealth should be the sole authority to impose taxes on income. It suggested that a scheme of uniform taxation should operate from 1st July, 1942, and that the States should be compensated on retiring from the field of income tax.

## THE INTRODUCTION OF UNIFORM TAXATION

In May, 1942 legislation was introduced into the Commonwealth Parliament to implement, with minor amendments, the recommendations of this Committee. Under this legislation, a uniform income tax scheme came into operation on 1st July, 1942.

In the same year the validity of the Commonwealth uniform tax legislation was challenged in the High Court by four of the State Governments. The challenge was unsuccessful, the High Court finding that the Commonwealth could enforce priority in the collection of its income tax and could make grants to the States under Section 96 of the Constitution on the condition that they vacated the field of income taxation.

Under this war-time uniform income tax scheme, therefore, the Commonwealth was the sole income taxing authority for the period of the war and one year thereafter. By way of compensation, the States were paid tax reimbursement grants (provided they did not impose taxes on income) based upon their average collections from taxes on income in the years 1939-40 and 1940-41.

Later in 1942 the Commonwealth, in agreement with the States concerned, established a uniform entertainments tax on a similar basis and provided for annual reimbursement grants, based on collections in 1941-42, to be paid to the five States which had previously levied entertainments tax.

#### THE CONTINUATION OF UNIFORM TAXATION AFTER THE WAR

At a Premiers' Conference in January, 1946 the States were informed that the Commonwealth Government proposed to continue uniform income tax indefinitely, and at that Conference a new reimbursement formula was worked out. This formula was incorporated in the States Grants (Tax Reimbursement) Act 1946. The grants continued to be conditional upon the States refraining from levying income tax, but the condition requiring the States to refrain from imposing entertainments tax was discontinued. Details of the grants paid to the States under this Act are given in Chapter III.

#### **DEVELOPMENTS SINCE 1950**

The matter was further discussed at the Premiers' Conferences of September, 1950 and August, 1951. In October, 1952 Victoria took out a writ in the High Court challenging the validity of the uniform tax legislation. However, this challenge was not pursued.

In July, 1952 the Commonwealth informed the States that it was willing to discuss with them the possibility of resumption of State income tax. A report subsequently prepared by Commonwealth and State Treasury officers on the technical problems involved was presented to a Premiers' Conference held in February, 1953.

At that Conference, Commonwealth and State Treasury officers were asked to prepare a further report as a basis for discussion on the extent to which the Commonwealth might vacate the income tax field. This report was received at a Premiers' Conference held in August, 1953, together with a report on the special problems facing Queensland in the event of the return of taxing powers. No agreement could be arrived at between the Commonwealth and the States on the extent to which the income tax field should be vacated by the Commonwealth.

In December, 1955 the Victorian Government took out a new writ in the High Court challenging the validity of the uniform tax legislation. In particular, Victoria disputed—

- (a) the power of the Commonwealth to make tax reimbursement grants conditional upon the States not levying income tax; and
- (b) the Commonwealth's power to provide an absolute priority for payment of Commonwealth income tax over income taxes levied by the States.

In November, 1956 the New South Wales Government intervened to support Victoria's challenge.

- In August, 1957 the High Court ruled-
  - (a) unanimously, that the condition attaching to the tax reimbursement grants, that the States should not levy income tax, was valid; and
  - (b) by a majority of four to three, that Section 221 (1) (a) of the Income Tax and Social Services Contribution Assessment Act 1936-1956, which prohibited a taxpayer paying State income tax until Commonwealth income tax was paid, was invalid.

At a special Premiers' Conference held in March, 1959 all of the main aspects of Commonwealth-State financial relations were considered. In particular, extensive discussions took place on the question of the resumption of income tax by the States, but there were considerable differences of opinion on the complex issues involved and no acceptable solutions emerged.

The Conference then turned its attention to the question of revising the tax reimbursement arrangements, and it was suggested that the Commonwealth might closely examine the whole system of revenue grants to the States with a view to submitting precise proposals at the normal meeting of the Premiers in June, 1959. This the Commonwealth did, and out of the proposals submitted to the States at that Conference there emerged a new system of general revenue grants, unanimously agreed to by all parties, to replace the tax reimbursement arrangements. Details of this scheme, which it was agreed should operate for a period of six years, are outlined in the next Chapter.

In September, 1964 the Victorian Government announced its intention of introducing a "marginal" income tax to be payable by individuals living in Victoria to operate as from the beginning of 1965-66 and requested the Commonwealth Government to collect the tax on its behalf. The Commonwealth refused to accede to the Victorian request, pointing out that an arrangement involving the abandonment or modification of uniform taxation could only be contemplated if it was supported by all States, contained adequate safeguards for the interests of taxpayers and provided a sound basis for future financial relationships between the Commonwealth and each of the States. The Victorian Government then indicated that it did not propose to set up the machinery for assessment and collection of its own income tax. Although Victoria again raised the question at the Premiers Conference held in June 1965 (see next Chapter) none of the other States supported the idea of a "marginal" State income tax.

#### CHAPTER III.—THE GENERAL REVENUE GRANTS

# PART A-THE TAX REIMBURSEMENT AND FINANCIAL ASSISTANCE GRANTS

As mentioned in the preceding Chapter, the Commonwealth, on introduction of the system of uniform taxation in 1942, undertook to pay tax reimbursement grants to the States provided they refrained from imposing taxes on income. A similar arrangement was enacted in regard to entertainments tax.

#### TAX REIMBURSEMENT GRANTS-WAR-TIME BASIS

The tax reimbursement grants (less any arrears of income tax collected by or on behalf of the States) paid to the States in the period 1942-43 to 1945-46 inclusive amounted to £34,255,000, of which £33,489,000 was by way of income tax reimbursement grants and £766,000 by way of entertainment tax reimbursement grants. The amounts payable to each State in each year are shown in Table 9.

Under the war-time legislation any State could apply for additional financial assistance if the income tax reimbursement grant appeared to be insufficient to meet that State's revenue requirements in any year. On the recommendation of the Commonwealth Grants Commission, the additional financial assistance given by the Commonwealth under this provision was £553,000 in respect of 1945-46 and £2,133,000 in respect of 1946-47. The amounts paid to the States concerned are shown in Table 9.

#### TAX REIMBURSEMENT GRANTS-POST-WAR BASIS

#### Formula Grants

At a Premiers' Conference in January, 1946 it was decided that the total tax reimbursement grants in both 1946-47 and 1947-48 should be £40,000,000, and that the grants in subsequent years should be determined by means of a formula under which this base amount would be increased in accordance with variations in population and half of the percentage increase in average wages per person employed for Australia as a whole. These provisions were incorporated in the States Grants (Tax Reimbursement) Act 1946.

Following further discussions with the States during the next two years, the total grant for 1947-48 was increased to £45,000,000 and the formula embodied in the 1946 Act was amended. Beginning in 1948-49, the aggregate grant payable to the States in each year under the Act, as amended, was determined by varying the sum of £45,000,000 in accordance with a formula which took account of—

- (a) variations in the total population of the six States since 1st July, 1947; and
- (b) the full percentage increase in the level of average wages per person employed in Australia as a whole over the level of 1945-46.

The States Grants (Tax Reimbursement) Act 1946 included a schedule determining the distribution of the aggregate grants in 1946–47 and 1947–48. It further provided that in each of the financial years 1948–49 to 1956–57, inclusive, a percentage of the grant was to be distributed in accordance with this schedule and the remainder was to be distributed in proportion to the populations of the States adjusted for density and for numbers of children between 5 and 15 years of age. The percentage to be divided according to the schedule was 90 per cent. in 1948–49, 80 per cent. in 1949–50 and so on down to 10 per cent. in 1956–57 and nothing in 1957–58. Thus in 1957–58 and 1958–59 the whole of the tax reimbursement grants was distributed in proportion to the States' adjusted populations so that the distribution of the grants between States was no longer determined, directly or indirectly, by reference to the amounts of income tax collected by each State.

# Grants to Supplement the Formula Grants

Although no change was made in the tax reimbursement formula after 1948-49, the Commonwealth made *ad hoc* grants to supplement the amount yielded by the formula in each subsequent year of its operation. These supplementary grants, which in some years took account of special circumstances, were distributed in some years in proportions which differed from those of the formula grants. The total amount of the tax reimbursement formula grants and supplementary grants paid to the States in 1946-47 was £42,133,000. Between that year and 1958-59 the amounts made available by way of these grants increased year by year so that the total amount paid in 1958-59 was £205,000,000. Details of the amounts paid each year are shown in Table 9.

# FINANCIAL ASSISTANCE GRANTS

## The 1959 Arrangements

Arising out of discussions at the special Premiers' Conference convened in March, 1959 to examine the questions of the resumption of income tax by the States and of Commonwealth-State financial relations generally (see Chapter II.), the Commonwealth submitted proposals at the Premiers' Conference in June of that year for a new system of financial assistance grants to the States to replace the existing tax reimbursement arrangements.

The proposals were devised in the light of generally expressed dissatisfaction with the methods of determination and distribution of the tax reimbursement grants, and in the knowledge that two non-claimant States had applied for special grants subject to the recommendation of the Commonwealth Grants Commission. In particular, it was considered desirable—

- (a) to amalgamate within some new revenue grant arrangements the large grants which were then being paid to supplement the tax reimbursement formula grants, and to devise a more liberal formula which would avoid the necessity for supplementary grants;
- (b) to reduce to two the number of States which would in future continue regularly to apply for special grants recommended by the Commonwealth Grants Commission, and to reduce the dependence of these States on special grants to more marginal proportions; and
- (c) to arrive at a more generally acceptable basis of distribution as between the States of Commonwealth general revenue grants.

With these ends in view, the Commonwealth proposed that financial assistance grants amounting to £242,500,000 should be paid to the States in 1959-60. This compared with the sum of £225,750,000 paid to the States in 1958-59 by way of tax reimbursement, supplementary and special grants. It was proposed that the distribution between the States of the sum of £242,500,000 should be in roughly the same proportions as the total sum of £225,750,000 had been distributed in 1958-59. except in the case of Western Australia and Tasmania. The proportionate shares allocated to these States were reduced slightly as it was proposed that they would still have access to the Commonwealth Grants Commission procedures. The practical effect of the proposal was that the amounts to be received by these two States by way of financial assistance grants would be substantially larger than their shares of the tax reimbursement and supplementary grants of the previous year so that the special grants would be reduced to more marginal proportions. The shares of Queensland and South Australia were designed to enable them, unless exceptional circumstances arose, to avoid applying for special grants in future years.

The Commonwealth further proposed that, in the years following 1959-60, the financial assistance grants payable to each State should be determined under a formula by which the grant paid to that State in the previous year would be varied in accordance with annual movements in the State's own population and annual increases in the level of average wages for Australia as a whole. In addition, to assist the States to improve the standard and range of services provided by them, it was proposed to introduce a "betterment factor" equal to 10 per cent. of the increase for the year in average wages; thus an increase of 4 per cent. in average wages would be raised to 4.4 per cent.

In outlining the above proposals, the Commonwealth pointed out that they were based on the understanding that the number of regular claimant States would be reduced to two but that Queensland and South Australia were to have right of access to the Commission in special or unexpected circumstances which endangered their budgetary position relative to that of other States. (This aspect of the arrangements is discussed further in Part B of this Chapter.)

It was also made clear that the proposals were based on the assumptions that the States and their authorities would continue to meet Commonwealth pay-roll tax and that the distribution of taxing powers between the Commonwealth and the States would remain unchanged. If any changes in Commonwealth-State relations having a major effect on the finances of the States were to occur during the currency of the new revenue grant arrangements, they would be subject to review.

Following representations by New South Wales and South Australia, the Commonwealth agreed to add £1,000,000 to each of the amounts it had originally proposed as grants to those States in 1959-60, thereby making the total £244,500,000. With these adjustments, the proposals were unanimously accepted by the Premiers and were embodied in the *States Grants Act* 1959, which was passed by the Commonwealth Parliament in November of that year.

The financial assistance grants paid to the States in 1960-61 were determined on the basis of the formula prescribed in the *States Grants Act* 1959. In 1961-62, however, in addition to the amounts determined under that Act, further amounts were paid to Victoria, Western Australia and Tasmania under the *States Grants Act* 1962.

This action was taken because the census held in June, 1961 revealed that the populations of those three States as at 1st July, 1960 had been over-estimated. Since the terms of the 1959 Act required the 1961 census results to be compared with unrevised estimates of population as at 1st July, 1960 for the purpose of calculating the increase in population of each State during 1960–61, the resulting estimates of population increases for these three States were lower than the actual increases. As these three States had framed their budgets on the basis of preliminary estimates made prior to the census results, the Commonwealth agreed to pay them grants equal to those preliminary estimates, revised to take account of the finally determined increase in average wages for Australia as a whole. As a result, an additional amount of  $\pounds$ 1,024,000 was paid to Victoria, £339,000 to Western Australia and £97,000 to Tasmania.

The States Grants Act 1962 also authorized, for the purpose of calculating Victoria's grant in 1962-63 and subsequent years, the adoption of a new "base amount" for 1961-62. This new base amount of  $\pounds72,730,000$  represented the grant which would have been received in 1961-62 by Victoria had the financial assistance grants for that State been calculated, in each year since 1959-60, in accordance with estimates of the population of that State revised in the light of the 1961 census.

#### The 1965 Arrangements

At the Premiers' Conference in June, 1959, it was agreed that the financial assistance arrangements would be reviewed after six years. This review was undertaken at two Premiers' Conferences, one held in April, 1965 and the other in June, 1965.

At the first Conference the States expressed the view that the annual rate of growth of the grants under the 1959 arrangements had been too slow when considered in relation to the rate of growth of their commitments for expenditure on important government services. Variations were suggested including proposals designed to increase the share of the grants going to particular States.

After considering in detail the proposals of the States the Commonwealth put forward a scheme at the June, 1965 Conference designed to meet the main points raised by the States. It was proposed that the annual financial assistance grant payable to each State should continue to increase in proportion to the two main factors affecting current expenditure of the States—variations in population and increases in wages. However, the most important change related to the "betterment" factor which it was suggested might be fixed at 1.2 per cent. per annum regardless of the size of the increase in average wages. As the betterment factor had increased the grants by about 0.4 per cent. per annum during the period of the 1959 arrangements, the Commonwealth's proposal would treble its effective size.

The Commonwealth also proposed that, in order to reduce the time lag before changes in population and wages were reflected in the grants, more up-to-date statistics for these two items should be used in calculating the grants. Specifically, it was proposed that the increase in average wages used to determine the grant for a financial year should be that for the year ending March of that financial year (instead of that for the preceding financial year) and that the increase in population used should be the increase during the year ending December in the financial year (instead of the increase during the preceding financial year).

It was suggested that the proposed new arrangements should stand for five years—from 1965-66 to 1969-70.

The proposals were acceptable to the States except that most of them did not want to reduce the time-lag in average wages as suggested since in that event their 1965-66 grants would be determined without reference to the large rise in average wages in 1964-65. It was therefore agreed that the increase in average wages would continue to be calculated as under the 1959 arrangements.

As regards the distribution of the grants, it was also agreed to increase Queensland's share of the grants by adding £1,000,000 to the amount on which Queensland's grant for each year would be calculated. This addition, which would have the effect of progressively increasing Queensland's share of the grants relative to the other States, was made largely in recognition of Queensland's large area and relatively small population. It was also agreed to make an addition of £600,000 to the grant which Victoria would receive in 1965–66 under the proposed new formula. This addition would have the effect of reducing to about the same level as in 1959–60 the difference between Victoria's grant per head and that of New South Wales.

Under the new arrangements, therefore, the grant for each State for each financial year, including the first year of the arrangements, would be determined by taking that State's grant for the previous year (with the addition of  $\pounds 1,000,000$  each year in the case of Queensland) and increasing it by the percentage change in the population of that State during the year ending 31st December of the year of payment; the amount

so obtained would be increased by the percentage increase in average wages for Australia as a whole for the financial year immediately preceding the year of payment; and this amount would be increased by the betterment factor of 1.2 per cent. In addition, the grant so determined for Victoria in 1965-66 would be increased by £600,000, and the resulting amount would be the amount to which the formula would apply in calculating that State's grant for 1966-67.

In contrast to the action taken in 1959, it was agreed that no part of the existing special grants would be incorporated in the claimant States' financial assistance grants. In addition, the Commonwealth made it clear that it expected that each of the four existing non-claimant States would agree to remain non-claimant for the period of the new arrangements. (See also Part B of this Chapter.)

As in 1959 the new arrangements were based on the assumption that there would be no significant changes in the financial relationships between the Commonwealth and the States. In particular, the proposals were based on the understanding that the distribution of taxing powers would remain unchanged and that the States and their authorities continue to pay pay-roll tax.

The preliminary estimates of financial assistance grants payable to the States in 1965-66 amount to  $\pounds 377,547,000$ , compared with actual payments of  $\pounds 340,674,000$  in 1964-65. The final determination of the grants to be paid in 1965-66 will be made by the Commonwealth Statistician later in the year.

The amounts paid to the States as general revenue grants (tax reimbursement grants or financial assistance grants, plus special grants) since 1942–43, together with the estimated payments for 1965–66, are shown in Table 8. Table 9 shows the dissection of tax reimbursement grants as between formula grants and supplementary grants for the period 1942–43 to 1958–59 inclusive.

# PART B.—SPECIAL GRANTS RECOMMENDED BY THE COMMONWEALTH GRANTS COMMISSION

Before the establishment of the Commonwealth Grants Commission, grants comparable to what are now called "special grants" were made to South Australia, Western Australia and Tasmania. The grants to Western Australia dated back to 1910–11, those to Tasmania to 1912–13 and those to South Australia to 1929–30. There was no set method of arriving at the grants before 1933, although on some occasions the applications for assistance were examined by the Public Accounts Committee.

The Commonwealth Grants Commission was established in 1933 under the Commonwealth Grants Commission Act 1933. It consists of three members, who are appointed by the Governor-General for terms not exceeding three years at a time. The members of the Commission give their services on a part-time basis and are assisted by a full-time staff. The present members are Mr. P. D. Phillips, C.M.G., Q.C. (Chairman), Professor W. Prest and Sir Alexander Reid, C.M.G., I.S.O.

During the initial period of its work the Commission considered "compensation for disabilities arising from federation" as a possible basis for its recommendations. It considered also the basis of "financial need". In its Third Report (1936), the Commission finally chose the principle of financial need, which was expressed in the following terms:—

"Special grants are justified when a State through financial stress from any cause is unable efficiently to discharge its functions as a member of the federation and should be determined by the amount of help found nccessary to make it possible for that State by reasonable effort to function at a standard not appreciably below that of other States."

# SPECIAL GRANTS AND THE FINANCIAL ASSISTANCE GRANTS

In the general review of the whole system of Commonwealth revenue grants which was undertaken early in 1959, consideration was given to the problems created by the fact that, for the first time, Queensland and Victoria had submitted applications for special grants.

At the June, 1959 Premiers' Conference, the Commonwealth made it clear at the outset that it considered that the system of special grants, made upon the recommendation of the Commonwealth Grants Commission, should be continued. At the same time, the Commonwealth expressed the view that the machinery which had been developed over the years by the Commonwealth Grants Commission would become unworkable if as many as five States were to seek special grants.

The Commonwealth suggested that, so far as future arrangements for special grants were concerned, the States might be regarded as falling into three categories. At one extreme were the two wealthier States of New South Wales and Victoria, which should not participate in any arrangements for special grants, and at the other extreme were Western Australia and Tasmania, which for the time being might be regarded as having a continuing need for special grants. In an intermediate category were the States of Queensland and South Australia. The Commonwealth considered that, while these two States ought not to be denied the right of access to the Commonwealth Grants Commission, the main revenue grants to them should be increased sufficiently to enable them, unless exceptional circumstances arose, to avoid applying for special grants.

This approach to the problem was accepted by the States and, in agreeing to the new revenue grant arrangements, the Premiers of Queensland and South Australia each gave an undertaking that his State would not exercise the right of applying for special grants in future unless special or unexpected circumstances endangered its budgetary position.

The 1959 arrangements also had the effect of reducing the size of the special grants so that these grants became more marginal in character; a direct consequence of this decision was that Western Australia and Tasmania each received a larger share of financial assistance grants in 1959-60 than the share they had received of tax reimbursement and supplementary grants in 1958-59.

Under the financial assistance arrangements agreed at the June, 1965 Premiers' Conference, Western Australia and Tasmania will continue as claimant States. At the Conference the Commonwealth made it clear that it expected that each of the four existing non-claimant States would remain non-claimant for the period of the new arrangements. However, the Commonwealth indicated that if there was a major change in the financial position of a State through circumstances beyond its control, it would be ready to review the position of that State under the financial assistance arrangements. 10804/65.-2

#### THE TWO-PART SYSTEM

Since 1949 each recommendation by the Commission for payment of a special grant has consisted of two parts. One part is based on an estimate of a claimant State's financial need in the current financial year, and is treated as an advance payment subject to adjustment two years later when the Commission has compared in detail the audited budget results and standards of effort and services provided in that year for both the claimant State and the standard States. The other part represents the final adjustment of the advance payment made two years earlier.

In 1965–66 special grants totalling  $\pounds 20,885,000$  have been recommended for payment. representing the total of the advance payments for the current financial year, 1965-66, and the adjustments to the advance payments made two years ago for the financial year 1963-64. In 1964-65 a total of £15,860,000 was paid in special grants. Table 10 shows special grants paid in each year since 1910-11.

The following table shows the final amount of special grants paid in respect of each of the years 1959-60 to 1963-64 inclusive---that is, the advance payment paid in the year concerned and the adjusting payment actually paid two years later. The table also shows estimates made by the Commonwealth Grants Commission of the final amounts of special grants payable in respect of 1964-65 and 1965-66.

				Western Austral	ia	Tasmania			
Version and a state of the stat	Financial Y	'ear	 Advance Payment	Adjustment to Advance Payment(a)	Total	Advance Payment	Adjustment to Advance Payment(a)	Total	
1959–60			 3,149	956	4,105	2,597	975	3,572	
1960-61			 3,700	310	4,010	3,400	141	3,541

FINAL SPECIAL GRANTS FOR EACH YEAR £'000

(a) Actually paid two years subsequent to the year shown. (b) These figures are tentative only at this stage, pending detailed investigations of the Commission over the next two years.

#### CHAPTER IV,-PAYMENTS UNDER THE FINANCIAL AGREEMENT

Payments are made by the Commonwealth to the States for expenditures of a revenue nature in a number of specific fields. The payments with the longest history are those made to the States under the Financial Agreement, and details are given below. Other payments of this nature are dealt with in Chapter V.

Under the Financial Agreement, which was entered into by the Commonwealth and the States in 1927, the Commonwealth makes contributions towards interest and sinking fund payments in respect of States' debts existing at 30th June, 1927, and towards sinking fund payments in respect of States' debts incurred after that date for purposes other than the funding of revenue deficits.

The interest payments superseded the *per capita* grants made available to the States under the *Surplus Revenue Act* 1910. They take the form of *Commonwealth* contributions towards the interest payable on States' debts, and each year total £7,585,000, the amount that was payable in 1926-27 under that Act. The contribution is apportioned between the States in the same way as the 1926-27 *per capita* grant, and is to continue for 58 years from 1st July, 1927 (that is, until 1985). It is distributed among the States as follows:---

					£'000
New South Wale	s			 ••	2,917
Victoria				 • •	2,127
Queensland		••		 ••	1,096
South Australia	• •	••	••	 ••	704
Western Australia	a.,			 ••	<b>4</b> 74
Tasmania				 ••	267
Total	•••			 •••	7,585

The sinking fund contributions made by the Commonwealth under the Agreement in respect of States' debts vary according to the date and nature of the borrowings. On States' debts existing at 30th June, 1927 the Commonwealth is making sinking fund contributions at the rate of 2s. 6d. per cent. per annum for a period of 58 years, and in respect of cash loans raised for the States since that date the Commonwealth makes sinking fund payments for 53 years at the rate of 5s. per cent. per annum. Each State is obliged to make sinking fund payments for corresponding periods at the rate of 5s. per cent. per annum of its debt, regardless of the date on which the debt was incurred. The main exception is in relation to debt incurred for the purpose of funding revenue deficits. In these instances, the Commonwealth makes no sinking fund contribution and the States are obliged to make contributions to the sinking fund of not less than 4 per cent. per annum. However, in respect of Treasury Bills issued to cover State revenue deficits accruing between July, 1927 and June, 1935, which totalled £43,018,000, special arrangements were made under which the Commonwealth contributes 5s. per cent. per annum until June, 1983 on the amount outstanding.

The Commonwealth's contribution to the sinking fund in respect of States' debts in 1964-65 was £8,323,000 and is estimated at £8,966,000 in 1965-66. The interest and sinking fund payments made by the Commonwealth for the States under the Financial Agreement in each year since 1927-28 are shown in Table 12.

# CHAPTER V.—OTHER PAYMENTS FOR SPECIFIC PURPOSES OF A REVENUE NATURE

In addition to payments under the Financial Agreement, the Commonwealth makes a number of other payments to the States for specific purposes of a revenue nature.

Specific purpose payments, as distinct from general revenue grants, first appeared in any numbers during the depression years of the early 1930's. Most of them were in the nature of emergency grants to alleviate unemployment and to provide assistance to primary producers. Examples were grants for unemployment relief, grants for local public works, grants for youth employment and payments in respect of Farmers' Debt Adjustment (from Loan Fund).

A significant increase in specific purpose payments has taken place since World War II. Table 11 summarises all specific purpose payments, together with debt charges met by the States in respect of loans made to them for specific purposes, in each year since 1952–53. They cover a wide range of activities—from some of the payments from the National Welfare Fund to developmental grants of one kind or another and grants made to alleviate hardship caused by natural disasters. Those made for purposes of a capital nature are dealt with in Chapters VI. and VII. Tables 12 to 22 show details of payments of a revenue nature and the following sections outline the nature of these payments, with the exception of payments under the Financial Agreement which are discussed in Chapter IV.

#### **UNIVERSITIES**

Payments to the States for universities were first introduced in 1951-52 under the States Grants (Universities) Act 1951, and were continued each year under similar legislation passed in 1953, 1955, 1956 and 1957. Under these Acts, the Commonwealth accepted responsibility to provide financial assistance to the States for the running expenses of universities, provided that the level of university income from State grants and fees reached, and was maintained at, certain basic levels. Additional Commonwealth assistance up to certain fixed amounts was also payable to the States on the basis of £1 for each £3 of State grants and fees in excess of these basic levels. The States Grants (Universities) Act 1957 authorized Commonwealth assistance on this basis up to £2,300,000 in each of the calendar years 1957 and 1958.

Following an inquiry in 1957 by the Committee on Australian Universities under the chairmanship of Sir Keith Murray, C.M.G., Commonwealth assistance to the States for universities was considerably expanded. The *States Grants (Universities) Act* 1958, which incorporated the main recommendations of the Committee, came into force on 1st January, 1958 and authorized payments to the States for universities up to £21,400,000 over the three calendar years 1958 to 1960. In addition to increased contributions towards the running expenses of universities, the new basis of assistance included emergency grants and grants for capital works and equipment. Under later legislation (the *States Grants (Universities) Act* 1960) the maximum Commonwealth assistance for the 1958–1960 triennium was increased to £21,950,000.

An Australian Universities Commission (with Sir Leslie Martin, C.B.E., as Chairman) was established by the *Australian Universities Commission Act* 1959 to inquire into and make recommendations on the subject of Commonwealth financial assistance to the States for universities. So far the Commission has submitted two reports covering, on a triennial basis, the financial needs of universities from 1961 to 1966.

The main financial recommendations in the Commission's first report, which was presented on 25th October, 1960, were incorporated in the *States Grants* (*Universities*) Act 1960. This Act carried on the principle of grants for capital works

and equipment introduced in the 1958 legislation. The 1960 Act authorized payments by the Commonwealth totalling  $\pounds 42,300,000$  for the three calendar years 1961 to 1963 and subsequent amendments to that Act in 1962, 1963 and 1964 increased the maximum Commonwealth assistance to  $\pounds 44,970,000$ . The 1962 amendment, which followed the presentation of the report by the Committee on Teaching Costs of Medical Hospitals, introduced the principle of capital assistance by the Commonwealth to the States for university projects in teaching hospitals.

21

In its second report presented on 27th August, 1963, the Australian Universities Commission recommended substantial increases in grants to the States for the three In the main, these recommendations were accepted calendar years 1964 to 1966. and incorporated in the Universities (Financial Assistance) Act 1963, which provided for the payment of £58,400,000 during the triennium. Following the adoption by the Commonwealth in October, 1964 of Mr. Justice Eggleston's report on academic salaries and the acceptance early in 1965 of certain proposals arising from the Report of the Committee on the Future of Tertiary Education, grants to the States for the recurrent, capital and research expenditures of universities in the 1964-66 triennium were further increased. These increases were incorporated in the Universities (Financial Assistance) Act 1965 which provides for grants to the States totalling £65,300,000 in the 1964-66 triennium. A further amendment will be necessary to give effect to the decision, arising out of the second report of the Committee on Teaching Costs of Medical Hospitals, to pay grants in respect of certain recurrent expenditures of teaching hospitals and towards specified university projects of a capital nature in those hospitals. This will increase further the level of assistance for the triennium. An amount of £22,714,000 has been included in the Budget for 1965-66 compared with actual expenditure by the Commonwealth of £20,637,000 in 1964-65. Of the estimated payment in 1965-66, £15,375,000 is for recurrent expenditures of the universities; an amount of £14,471,000 was expended for this purpose by the Commonwealth in 1964-65.

Details of expenditure by the Commonwealth on assistance for universities since 1951-52 are given in Table 13. Reference is made in Chapter VII. to the amounts provided to the States for capital expenditure by universities.

# **RESEARCH GRANTS**

When presenting the Report of the Committee on the Future of Tertiary Education in Australia to Parliament on 24th March, 1965, the Prime Minister announced, inter alia, that the Commonwealth would make available  $\pounds 1,000,000$  in support of selected research projects to be carried out in any academic field by individuals or research teams. Where a research project is to be carried out in a State university the provision of Commonwealth assistance is to be conditional on an equal matching grant to the university by the State Government concerned.

Subsequently, the Australian Research Grants Committee was established, under the chairmanship of Professor R. N. Robertson, to evaluate research projects and to make recommendations to the Government concerning the amount and disposition of grants in this field. The Committee has commenced its task and, subject to the willingness of State Governments to match grants proposed for university research projects, it is expected that the Commonwealth will make grants aggregating some £750,000 in 1965-66. Because grants will be awarded on the basis of relative merit, it is not possible to foresee how this amount will be distributed between the States.

#### NATURAL DISASTERS

When serious floods, cyclones or bushfires occur the Commonwealth, upon request, may join with the State in which the disaster has taken place in financing schemes for the relief of personal hardship and distress. In addition, the Commonwealth has from time to time made special payments to States for the restoration of public assets, and for other purposes, where the work involved placed an undue burden on the finances of the State concerned.

Grants amounting to  $\pounds 50,000$  were paid to New South Wales, Victoria and South Australia during 1964-65 for the relief of personal hardship and distress resulting from bushfires. The 1965-66 Budget provides for a further payment of  $\pounds 20,000$  to Victoria for this purpose.

Payments to the States in respect of natural disasters in each year since 1949-50, showing separately payments for relief of personal hardship and distress and payments for the restoration of public assets, &c., are shown in Table 14.

#### COAL MINING INDUSTRY LONG SERVICE LEAVE

In the States where coal-miners have been awarded long service leave by industrial tribunals, the State Governments have agreed to reimburse employers the costs they incur in granting this leave. The Commonwealth has, in turn, agreed to reimburse the States for the amounts paid and the administrative costs incurred by them in giving effect to these arrangements. The funds required for these purposes are obtained from an excise imposed on coal under the Coal Excise Act 1949-1961. An amount equivalent to the proceeds of the excise is appropriated to a Trust Account under the States Grants (Coal Mining Industry Long Service Leave) Act 1949-1961.

The rate of excise was reduced from 8d. to 5d. a ton as from 1st September, 1959. It was further reduced to 4d. a ton as from 1st June, 1961, when the excise was removed from coal produced for export.

An amount of £299,000, equivalent to the excise collections, was appropriated from Consolidated Revenue to the Coal Mining Industry Long Service Leave Fund in 1964-65. The estimated appropriation for 1965-66 is £300,000. The appropriations to the Fund in respect of individual States in each year since the inception of the scheme are shown in Table 15.

#### PROMOTION OF ROAD SAFETY PRACTICES

Since 1947-48 the Commonwealth each year has provided amounts specifically for public education programmes for the promotion of road safety practices. The initial annual provision of £100,000 was increased to £150,000 in 1955-56. Under present arrangements an amount of £50,000 per annum is distributed among the States for assistance towards local programmes, and the balance is used for programmes having general application on a national basis and for assistance towards local programmes in the mainland Territories. Table 16 shows the amounts paid to each State from the inception of these arrangements.

#### MAINTENANCE OF EYRE AND BARKLY HIGHWAYS

Since 1947-48 the Commonwealth has provided financial assistance towards the cost of maintaining the Eyre Highway in South Australia and Western Australia and the Barkly Highway in Queensland. These payments were made from the Commonwealth Aid Roads Trust Account prior to 1959-60, and from annual appropriations since 1st July, 1959. The payments, which are currently on a £1 for £1 basis, totalled £32,000 in 1964-65 and it is estimated that a similar amount will be expended in 1965-66. This includes £12,500, the maximum Commonwealth contribution, to each of the States of South Australia and Western Australia and £7,000 for Queensland. The amounts provided to each of the three States since 1st July, 1959 are set out in Table 17.

# DAIRY INDUSTRY EXTENSION SERVICES

In 1948-49 the Commonwealth instituted the payment of annual grants to the States to promote improved farm practices in the dairy industry. These grants initially were to continue for five years, with an annual limit of  $\pounds 250,000$ . Included within this limit were small amounts to be expended directly by the Commonwealth on projects common to a number of States. The scheme has been extended on three occasions, each time for a further period of five years, and under the present arrangements will continue, with an annual limit of  $\pounds 350,000$ , until 30th June, 1968.

The payment in 1964-65 was £336,000 and the estimated payment for 1965-66 is  $\pounds$ 337,000. Payments made to each State since 1948-49 are set out in Table 18.

# EXPANSION OF AGRICULTURAL ADVISORY SERVICES

Since 1952-53 the Commonwealth has made grants for the purpose of stimulating the expansion of agricultural advisory services in the States and so promoting increased farm efficiency.

The moneys appropriated for this purpose are, in the main, paid to the State Departments of Agriculture for expenditure on approved projects, but some expenditure is incurred directly by the Commonwealth on projects common to a number of States.

The payment to the States in 1964-65 was £270,000 and the estimated payment in 1965-66 is £264,000. Payments made to each State since 1952-53 are set out in Table 19.

## MINOR AGRICULTURAL RESEARCH

Since 1960-61 the Commonwealth has made moneys available to finance special investigation and extension projects of a new, short-term nature on a  $\pounds 1$  for  $\pounds 1$  matching basis with the States and/or industry.

The payments to the States for this purpose in 1963-64 and 1964-65 were £23,000 and £17,000 respectively. The estimated payment in 1965-66 is £11,000. The distribution of these amounts is as follows:---

			1963-64 £	196465 £	1965-66(est.) £
New South Wale	es	•••	 4,000	4,000	4,000
Victoria		•• •	 7,000	6,000	
Queensland		• •	 12,000	6,000	6,000
South Australia	••	• •	 • •	1,000	1,000
Total		· .	 23,000	17,000	11,000

#### TOBACCO INDUSTRY EXTENSION SERVICES

In each of the years 1962-63 and 1963-64 the Commonwealth made a grant amounting to  $\pounds 24,000$  to the tobacco-growing States for additional extension services for tobacco growers. The distribution of this amount in each year was  $\pounds 3,000$  to New South Wales,  $\pounds 8,000$  to Victoria and  $\pounds 13,000$  to Queensland.

#### CATTLE TICK CONTROL AND RESEARCH

Since the 1920's the Commonwealth has been contributing towards the cost of cattle tick control and research in New South Wales.

The payment for this purpose in 1964-65 was  $\pounds 207,000$  and the estimated payment in 1965-66 is  $\pounds 174,000$ . Commonwealth contributions towards the cost of cattle tick measures since 1949-50 are shown in Table 20.

#### MAINTENANCE OF TUBERCULOSIS HOSPITALS

Under the *Tuberculosis Act* 1948 the Commonwealth reimburses the States for maintenance expenditures they incur in the diagnosis, treatment and control of tuberculosis, to the extent that expenditures by the States in any financial year exceed those for the year 1947-48.

The payment in 1964-65 was £5,064,000 and the estimated payment in 1965-66 is  $\pounds$ 5,361,000. Commonwealth expenditures for this purpose since 1949-50 are shown in Table 21. (See Chapter VII. and Table 39 for Commonwealth grants in respect of capital expenditures on tuberculosis hospitals.)

#### HOUSEKEEPER SERVICES

In 1951 the Commonwealth offered financial assistance to the States, up to a limit of £15,000 a year, to encourage the development of housekeeper services conducted by approved organizations and to provide assistance to families in emergencies. The offer was made on the basis that the sum of £15,000 would be distributed among the States in proportion to their populations and that the States would not reduce their own expenditures on, or subsidies for, these services.

The State of Queensland declined the Commonwealth's offer and the Commonwealth itself has distributed that State's proportion of the sum of £15,000 to emergency housekeeper services in Queensland. South Australia has not yet availed itself of the Commonwealth's offer.

In the period 1950-51 to 1963-64, inclusive, the other States received the maximum yearly amounts available to them, distributed as follows:—New South Wales, £5,900; Victoria, £4,100; Western Australia, £1,000; and Tasmania, £500. In 1964-65 New South Wales received £5,900, Victoria £4,100 and Western Australia £500. In 1965-66 provision has been made for the payment of £5,900 to New South Wales, £4,100 to Victoria and £1,000 to Western Australia.

Total payments to these States under this scheme up to 30th June, 1965 have been:-

						£
New South Wales	••	••	••		••	88,000
Victoria	••		••	••	••	62,000
Western Australia	••		• •		۰.	15,000
Tasmania	••		••		۰.	7,000
Total						172,000
Fotal	••	••	••	••	••	172,000

## BLOOD TRANSFUSION SERVICES

The Commonwealth commenced making grants to the States in 1953-54 for the purpose of assisting blood transfusion services conducted by the Australian Red Cross Society. The allocations in the first year were on a population basis, with a limit of  $\pounds$ 50,000. In 1954-55 the basis of Commonwealth assistance was changed to 30 per cent. of the cost incurred by the Society in conducting its blood transfusion services in a State, conditional on the State meeting 60 per cent. of those costs.

The payment for this purpose in 1964-65 was £214,000 and the estimated payment in 1965-66 is £232,000. Expenditure since 1953-54 is shown in Table 22.

## INVESTIGATION OF WATER RESOURCES

In 1964-65 the Commonwealth agreed to provide financial assistance to the States for accelerated programmes of surface water measurement and investigation of underground water resources. The surface water programme is aimed at completing, within 10 years, a basic network of stream gauges throughout Australia; the underground investigations involve a general speeding up of the work of locating and measuring underground water resources. The initial period of assistance will be three years for each programme. The total payment for investigation of water resources in 1964-65 was £343,000 and the estimated payment in 1965-66 is £444,000. The distribution of this amount between the States is as follows:--

					£

# CHAPTER VI.-COMMONWEALTH AID FOR ROADS

Payments are made by the Commonwealth to the States for expenditure on capital works in a number of specific fields and on certain specific projects. The most important of these, and that with the longest history, is Commonwealth aid for roads, details of which are given below. Other payments of this nature are dealt with in Chapter VII.

The Main Roads Development Act 1923 provided for payment to the States of a single lump sum of £500,000, subject to a £1 for £1 contribution by the States themselves. The basis of distribution of the total sum amongst the States, although not explicitly stated as such, was the "two-fifths area, three-fifths population" formula which subsequently applied until 1959-60. Subsequent amendments to the Act increased the sum payable. first by £500,000 in 1924 and then by a further £750,000 in 1925.

Under the Federal Aid Roads Act 1926 annual allocations of £2,000,000 were provided and were distributed amongst the States on the explicitly stated "two-fifths area, three-fifths population" formula. Among other changes, the Act reduced the matching contribution required of the States to 15s. for each £1 provided by the Commonwealth.

The *Federal Aid Roads Act* 1931 amended the Act of 1926 by repealing the requirement for matching State contributions. Also, instead of the previous provision of a fixed annual amount, the allocations for roads were explicitly associated with the yield from "petrol tax", being determined on the basis of  $2\frac{1}{2}d$ , and  $1\frac{1}{2}d$ , per gallon of petrol cleared for Customs duty and Excise duty purposes, respectively.

The Federal Aid Roads and Works Act 1937, while maintaining the previous rates for allocations to the States for road works, allocated the equivalent of an additional  $\frac{1}{2}d$ . per gallon of petrol subject to either Customs or Excise duty to be used by the States either on road works or on "other works connected with transport". Of this additional allocation, the States could be required to use up to one-twelfth on roads adjoining or approaching Commonwealth properties.

The Commonwealth Aid Roads and Works Act 1947 provided for allocations of 3d. and 2d. per gallon of petrol subject to Customs duty and Excise duty, respectively. Of the proceeds of these allocations, the States could spend up to one-sixth on "other works connected with transport". In addition, the Act provided a sum of £1,000,000 per annum to be spent on "rural" roads. (By subsequent amendments to the Act in 1948 and 1949, this sum was raised to £2,000,000 and then to £3,000,000.) An amount of £500,000 per annum was also provided for Commonwealth expenditure on "strategic" roads and roads of access to Commonwealth properties. A further £100,000 per annum was provided for the promotion of road safety measures.

The amounts per gallon of dutiable petrol allocated for roads were increased under the *Commonwealth Aid Roads Act* 1950 to 6d. and  $3\frac{1}{2}d$ ., respectively. The amount of £600,000 for expenditure by the Commonwealth on strategic roads and road safety, which had previously been provided separately by the Commonwealth, was now provided from the amounts allocated on the basis of petrol clearances. In addition, the former lump sum provision for expenditure by the States on "rural" roads was replaced by a new provision requiring at least 35 per cent. of the total amount allocated to be spent on such roads.

In the Commonwealth Aid Roads Act 1954 the amounts allocated for roads in respect of petrol subject to duty, whether Customs or Excise, were raised to the uniform rate of 7d. per gallon. They were subsequently increased to 8d. per gallon in March, 1956. The minimum proportion to be spent on "rural" roads was

increased from 35 per cent. to 40 per cent., and the total amount which could be spent on "other works connected with transport by road or water" was reduced to a flat sum of  $\pounds1,000,000$  per annum. From the total allocation,  $\pounds900,000$  per annum was reserved to the Commonwealth. This was raised to  $\pounds950,000$  in 1955.

In association with the imposition of a tax of 1s. per gallon on automotive diesel fuel consumed in road-using vehicles, the Commonwealth agreed to provide special assistance for roads of  $\pounds 3,000,000$  in each of the years 1957-58 and 1958-59. The Commonwealth retained  $\pounds 50,000$  for Commonwealth road purposes and the balance of this special assistance was distributed between the States on an arbitrary basis.

Following a special conference on roads convened by the Commonwealth in February, 1959, proposals for a new scheme of Commonwealth aid for roads were placed before State Premiers in March of that year. These proposals were later enacted in the *Commonwealth Aid Roads Act* 1959, which operated for five years commencing 1st July, 1959. Under that Act the Commonwealth made payments totalling £250,000,000 to the States for roads, or almost £100,000,000 more than was provided during the five years of the previous legislation. This amount comprised basic grants totalling £220,000,000, and additional grants totalling £30,000,000 which were made available to the States, subject to certain annual limits, on the basis of £1 for each £1 allocated by the State Governments from their own resources for expenditure on roads over and above the amounts allocated by them for roads expenditure in 1958–59.

In the 1959 Act three important changes were made in the bases of road grants to the States. Commonwealth road grants to the States were no longer determined on the basis of petrol clearances; a change in the distribution of the grants as between the States was effected by the inclusion of motor vehicle registrations in the distribution formula as a third and equal factor with area and population; and the condition of  $\pounds 1$  for  $\pounds 1$  matching expenditure by the States was introduced for that part of the financial assistance described as the additional grant.

The 1959 Act expired on 30th June, 1964, and was replaced by the *Commonwealth Aid Roads Act* 1964 which was introduced to operate for the five-year period 1964-65 to 1968-69, inclusive. The State Premiers agreed to the main features of this legislation at a special Premiers' Conference held in March, 1964.

Under the terms of the 1964 Act, a total sum not exceeding £375,000,000 is payable by the Commonwealth to the States for roads over the five-year period commencing on 1st July, 1964. This represents an increase of 50 per cent. on the amount of £250,000,000 which was provided over the preceding five years under the 1959 legislation. The total of £375,000,000 is made up of a basic grant of £330,000,000, and an additional grant of £45,000,000 payable, subject to certain annual limits, on the basis of £1 for every £1 spent on roads by the State Governments from their own resources over and above certain base amounts. These are the amounts that were required to be allocated by States for roads expenditure in order to qualify for their additional grants in 1963-64, the last year of operation of the previous legislation. The following table shows the basic and additional grants payable under the 1964 Act:--

				1		1	
					Basic Grant	Additional Grant	Total
				~~~ <u>~</u> ~	£'000	£'000	£'000
1964-65			• •		62,000	3,000	65,000
1965-66					64,000	6,000	70,000
196667					66,000	9,000	75,000
196768					68,000	12,000	80,000
196869	••	•••	• •		70,000	15,000	85,000
	Total			 	330,000	45,000	375,000

The maximum amount (i.e., the basic grant plus the additional grant) payable to the States in respect of each year will continue to be distributed on the same basis as that introduced in the 1959 Act, namely, in the proportions of 5 per cent. of the total for Tasmania and the remainder shared between the other five States, one-third according to population at the last preceding census, one-third according to area and one-third according to vehicles registered at 31st December preceding the year concerned.

Several provisions contained in both the Commonwealth Aid Roads Act 1954 and the Commonwealth Aid Roads Act 1959 have been repeated in the current legislation. These include the requirement that not less than 40 per cent. of the funds made available by the Commonwealth in each year be spent on roads in rural areas, other than highways, main roads or trunk roads. The States may also spend between them up to £1,000,000 each year out of the road grants on works, other than the construction of roads, connected with transport by road or water. As under the previous legislation, the States are free to allocate to municipal or local authorities for roads purposes any part of the moneys received by them from the Commonwealth.

Following representations made at the special Premiers' Conference, the Commonwealth decided that the provision in the 1959 Act permitting the States to make payments for or in connexion with research relating to the construction, maintenance or repair of roads should be extended to include research relating to the planning and design of roads.

The amount paid to the States for roads under the Commonwealth Aid Roads Act 1964 in 1964-65 was £65,000,000 and the amount payable in 1965-66 is £70,000,000. The amounts paid to the States for roads under the Aid Roads and comparable legislation since 1923 are shown in Table 23. The amounts allocated by the Commonwealth for roads under Aid Roads and comparable legislation differed slightly from the amounts actually paid to the States prior to 1959-60; the amounts so allocated are shown in Table 24.

# CHAPTER VII.—OTHER PAYMENTS FOR SPECIFIC PURPOSES OF A CAPITAL NATURE

Payments are also made to the States for purposes of a capital nature other than roads. There was an expansion in the number of such payments and in the total amounts involved, following consideration early in 1961 of methods of assisting Australia's balance of payments. Since then the Commonwealth has assisted various developmental projects, particularly those that would assist in promoting exports.

Payments to the States for specific projects of a capital nature have taken the form of both loans and grants. Tables 23 to 39 show details of the payments and, where relevant, payments by the States of interest and repayments of loans. The following sections outline the nature of the payments.

#### **UNIVERSITIES**

As explained in Chapter V., the practice of making grants to the States for capital works and equipment for universities was introduced under the States Grants (Universities) Act 1958 and continued under subsequent legislation. The States Grants (Universities) Act 1962 widened the scope of this assistance in the 1961-63 triennium to include capital expenditure on university projects in teaching hospitals. As a result of the second report of the Committee on Teaching Costs of Medical Hospitals recently published, similar capital grants will be paid in respect of the 1964-66 triennium.

Payments to the States in 1964-65 for these purposes amounted to  $\pounds 6,166,000$  and the amount payable in 1965-66 is estimated to be  $\pounds 7,339,000$ .

Details of payments for capital works and equipment are shown in Table 13.

# COLLEGES OF ADVANCED EDUCATION

The Report of the Committee on the Future of Tertiary Education in Australia recommended the establishment of a new type of educational institution, to supplement universities and to be developed from, and around, the existing tertiary segments of existing technical colleges. The Report also recommended that funds for the capital and recurrent purposes of these colleges should be provided by Commonwealth and State Governments in the same way as for universities.

In his statement to Parliament on 24th March, 1965, the Prime Minister indicated the Commonwealth's acceptance, in principle, of the Committee's approach and its willingness to provide financial assistance in the 1967-69 triennium in the manner recommended. As an interim measure, the Committee recommended the payment of interim capital grants to specified colleges in 1965 and 1966 totalling £5,000,000. This matter is, at present, the subject of discussion between the Commonwealth and State Governments but it is expected that the Commonwealth will provide, in 1965-66, interim capital grants for these colleges of £1,000,000. At this stage, however, it is not possible to give the distribution of this amount between the States.

## SCIENCE LABORATORIES AND EQUIPMENT IN SECONDARY SCHOOLS

Under the States Grants (Science Laboratories and Technical Training) Act 1964 an amount of £4,952,900 was made available to the States in 1964-65 for the purpose of improving science teaching in secondary schools. The States Grants (Science Laboratories) Act 1965 provides for the continuation of these grants in each of the three financial years 1965-66, 1966-67 and 1967-68.

The grants for science laboratories and equipment in secondary schools may be applied to both government and non-government schools. Of the grant to the States of  $\pm 4,952,900$  paid in 1964-65 and authorized for 1965-66 and the two succeeding financial years,  $\pm 3,618,900$  is available for government schools and  $\pm 1,334,000$  for

non-government schools; the basis of this allocation is the number of secondary school pupils enrolled in each of these two classes of schools at schools' censuses held in August, 1963. The distribution of these two component amounts between the States is related to their populations. Details of this distribution are given in the following table:—

				Government Schools	Non-Government Schoo!s	Total
New South Wales				£'000 1,355.0	£'000 499.4	£'000 1,854,4
Victoria	••	••		1,022,6	377.0	1,399.6
Oueensland	••	••	4,	524.2	193.2	717.4
South Australia				337.7	124.5	462.2
Western Australia			!	258.5	95.3	353.8
Tasmania				120.9	44.6	165.5
Total	•••			3,618.9	1,334.0	4,952.9

## TECHNICAL TRAINING-BUILDINGS AND EQUIPMENT

The States Grants (Science Laboratories and Technical Training) Act 1964 also introduced, in 1964–65, grants to the States of £5,000,000 towards the building and equipment costs of technical schools or colleges. Continuation of these grants at the same level in 1965–66 and each of the two succeeding financial years has been authorized by the States Grants (Technical Training) Act 1965.

Grants for buildings and equipment for use in technical training may be applied only to schools or colleges conducted by the States. The distribution (related to population) between the States of the £5,000,000 being made available annually is:-

					£'000
New South Wales	· .			••	 1,872.0
Victoria	• .	• •			 1,412.9
Queensland		• •		• •	 724.2
South Australia	• •	• •			 466.6
Western Australia	••	••	••	••	 357.2
Tasmania	• •	۰.	• •		 167.1
Total	••	• •	• •		 5,000.0

#### RAILWAY PROJECTS

Commonwealth financial assistance has been and is being made available to the States for various railway projects, in most cases partly by way of grants and partly by way of repayable interest-bearing loans. Details of expenditure on these projects in past years and the provision for expenditure in 1965-66 are given in Table 25. Details of payments made by the States in respect of interest and repayment of loans are given in Table 26. A brief note on each of the projects is included hereunder.

#### (a) Albury-Melbourne

Under the Railway Standardization (New South Wales and Victoria) Agreement Act 1958 the Commonwealth provided £15,973,000 for the construction of the standard gauge rail link between Albury and Melbourne. In addition, a contribution of £14,000 was made towards the cost of the initial survey. Each of the two States is repaying 15 per cent. of the cost of construction by instalments over a period of 50 years, plus interest on outstanding balances.

#### (b) Queensland

Under the Railway Agreement (Queensland) Act 1961 the Commonwealth agreed to provide advances of up to £20,000,000 for the reconstruction of the Mount Isa-Townsville-Collinsville railway. The State is to repay the advances by instalments, with interest on outstanding balances, over a period of 20 years. Work on the railway was virtually completed during 1964-65, when the Commonwealth advanced a total of £1,508,000, bringing total advances for the work to £17,267,000. The State commenced repayment of these advances on 30th June, 1965 as provided for in the Agreement.

## (c) South Australia

Up to 30th June, 1965 the Commonwealth had provided £8,800,000 to South Australia under the Railway Standardization (South Australia) Agreement Act 1949. This Agreement provides for the carrying out of various rail gauge standardization works in South Australia, the Commonwealth being required to provide initially all the finance and the State to repay 30 per cent. of this by instalments over a period of 50 years, plus interest on outstanding balances. Conversion of the 3 ft. 6 in. gauge lines of the South-Eastern Division of the State (temporarily to 5 ft. 3 in. gauge pending conversion of the main South Australian and Victorian systems) has been completed at a cost of £5,039,000. The State has undertaken to bear the whole of the cost of the subsequent conversion to 4 ft.  $8\frac{1}{2}$  in. gauge. Work is currently proceeding on the standardization of the Broken Hill-Port Pirie railway and on preliminary survey work on the Port Pirie-Adelaide railway. Payments by the Commonwealth for these purposes up to 30th June, 1965 totalled £3,760,000, including £2,246,000 provided in 1964-65. It is estimated that £4,088,000 will be provided in 1965-66.

Under the Railway Equipment Agreement (South Australia) Act 1961 the Commonwealth agreed to provide up to £1,325,000 for the purchase of twelve dieselelectric locomotives and 100 wagons of 3 ft. 6 in. gauge for ore traffic on the Broken Hill-Port Pirie line. The financial arrangements under this Agreement are similar to those mentioned above for standardization works. The Equipment Agreement required that the locomotives and wagons be readily convertible to standard gauge when the gauge of the railway is widened, and that the cost of conversion be met entirely by the State. The total cost of the equipment was £1,317,000 of which £1,300,000 was provided by the Commonwealth during 1962-63, and the balance of £17,000 in 1963-64.

# (d) Western Australia

Under the Railway Agreement (Western Australia) Act 1961 the Commonwealth is to provide financial assistance to Western Australia for the construction of a standard gauge railway from Kwinana to Koolyanobbing, with an extension to Kalgoorlie, and for the purchase of rolling stock for the railway. While the project is associated with plans for the development of an iron and steel industry at Kwinana using iron ore to be taken from Koolyanobbing, the extension of the railway eastward to Kalgoorlie will also provide a standard gauge link between Perth and the Trans-Australian Railway.

For financing purposes the cost of the project is divided equally into two parts, one of which is attributed to development and the other to the creation of a uniform gauge railway between Western Australia and the Eastern States. In respect of that part of the cost associated with railway standardization, the Commonwealth will provide initially all the finance and the State will repay 30 per cent. by instalments over 50 years, plus interest on outstanding balances. In respect of that part of the cost attributed to development, the Commonwealth will provide initially 70 per cent. of the finance and the State is to repay this in full over 20 years, plus interest on outstanding balances.

Expenditure by the Commonwealth to 30th June, 1965 amounted to £11,058,000. An amount of £5,133,000 was provided in 1964-65 and it is estimated that expenditure in 1965-66 will be  $\pm 10,150,000$ .

#### ENCOURAGEMENT OF MEAT PRODUCTION

For the purpose of stimulating pastoral development in accordance with Australia's commitments under the Fifteen Year Meat Agreement with the United Kingdom, the Commonwealth agreed in 1949 to provide financial assistance for new and improved facilities for the movement of cattle in the Channel country of Queensland and in the area serving the meatworks at Wyndham, Western Australia.

The Governments of Queensland and Western Australia were responsible for construction work within their respective States, and the Commonwealth undertook to provide them with grants amounting to  $\pounds 2,166,000$ . This undertaking was written into the States Grants (Encouragement of Meat Production) Act 1949–1954.

Expenditure by the Commonwealth up to 30th June, 1965 under the scheme was  $\pounds 2,161,000$ . Details of the payments made since 1950–51 are shown in Table 27.

# RECHARGING OF CATTLE DIPS

In 1962-63 special payments of  $\pounds 48,000$  to New South Wales and  $\pounds 5,000$  to Queensland were made by the Commonwealth towards the costs of changing the chemicals in cattle dips.

## BEEF CATTLE ROADS

In addition to the amounts provided to the States for roads as outlined in Chapter VI. the Commonwealth has in recent years made available specific grants and loans for the construction and improvement of certain roads used for the transport of beef cattle. Payments for this purpose, together with debt charges paid by the States in respect of loans, are shown in Table 28.

#### (a) Queensland

The Queensland Grant (Beef Cattle Roads) Act 1961 provided for financial assistance to Queensland to the extent of  $\pounds 5,000,000$  during the five-year period from 1st July, 1961 for the construction of beef cattle roads. Under the Queensland Beef Cattle Roads Agreement Act 1962, which supersedes the 1961 legislation, the amount of assistance was increased by  $\pounds 3,300,000$  to an amount not exceeding  $\pounds 8,300,000$  in order to include the cost of bitumen sealing the roads. These roads will facilitate the movement of cattle from the beef cattle producing areas of the State and are expected to increase the turn-off of beef cattle for export. The Agreement provides for the State to repay, over a period of fifteen years commencing in December, 1967, one-half of the amount provided by the Commonwealth in excess of  $\pounds 1,700,000$  (that is, the State will repay  $\pounds 3,300,000$  of the total amount of  $\pounds 8,300,000$ ). Interest is payable on the outstanding portion of the loan calculated from the date of advance by the Commonwealth.

Payments by the Commonwealth to 30th June, 1965 amounted to  $\pounds 5,997,000$ . It is estimated that  $\pounds 2,000,000$  will be provided by the Commonwealth in 1965-66.

## (b) Western Australia

The Western Australia Grant (Beef Cattle Roads) Acts 1961 and 1962 authorize grants of £500,000 in 1961-62, £700,000 in 1962-63 and £750,000 in each of the three succeeding years for certain road works in the northern part of the State in order to improve the roads for the transport of beef cattle from this area. The State is to spend at least an equivalent amount in the aggregate from its own resources on roads generally in the north.

Expenditure by the Commonwealth under these Acts to 30th June, 1965 totalled  $\pounds 2,700,000$  and an amount of  $\pounds 750,000$  has been provided for this purpose in 1965-66.

# GORDON RIVER ROAD

The Tasmania Grant (Gordon River Road) Act 1964 authorizes payments up to  $\pounds 2,500,000$  to the State of Tasmania to assist the State in financing the construction of a road, approximately fifty miles in length, into the rugged Gordon River region of South-West Tasmania, primarily for the purpose of enabling detailed investigation and development of a further stage of the Tasmanian hydro-electric system. Payments will be made by way of reimbursement of expenditure by the State on construction of the road over the period of four years ending 30th June, 1967. Payments by the Commonwealth to 30th June, 1965 amounted to  $\pounds 682,000$ , and it is estimated that  $\pounds 638,000$  will be provided by the Commonwealth in 1965–66. Payments in each year are shown in Table 29.

## LOADING FACILITIES FOR EXPORT OF COAL

Payments made by the Commonwealth for loading facilities for the export of coal are shown in Table 30, together with debt charges met by the States concerned; background notes on these payments follow.

#### (a) New South Wales

The Coal Loading Works Agreement (New South Wales) Act 1961 authorizes the Commonwealth to make available to the State, on a £1 for £1 basis, financial assistance up to £2,650,000 towards the cost of improvements in coal loading works at the ports of Newcastle, Port Kembla and Balmain being undertaken by the State Government. Financial assistance by the Commonwealth was designed to expedite completion of the coal loading works and thereby facilitate expansion of coal exports through these ports. The State, for its part, undertook to carry out the coal loading works and related harbour improvements.

Of the assistance being provided by the Commonwealth, up to  $\pounds 1,000,000$  is to be made available by way of grant from the Coal Industry Fund of the Joint Coal Board. The remaining amount of up to  $\pounds 1,650,000$  is to be provided in the form of interest-bearing advances repayable within ten years.

At the 30th June, 1965 Commonwealth assistance to New South Wales under the Agreement amounted to £1,997,000. Of this, £1,243,000 was provided as a loan and the remaining £754,000 took the form of grants from the Coal Industry Fund of the Joint Coal Board. The work at Port Kembla and Balmain has been completed and the new coal handling facilities at these ports are now in operation. Commonwealth assistance towards the facilities at Port Kembla and Balmain was £1,150,000, made up of £716,000 as a loan and £434,000 as a grant from the Joint Coal Board.

It is estimated that a final payment of  $\pounds 653,000$  will be made under the Agreement in 1965-66. Of this amount,  $\pounds 407,000$  will be a loan by the Common-wealth and  $\pounds 246,000$  a grant from the Coal Industry Fund.

#### (b) Queensland

The Coal Loading Works Agreement (Queensland) Act 1962 authorized the Commonwealth to provide up to £200,000 of the total estimated cost of £405,000 for planned improvements to coal loading facilities at Gladstone. Gladstone is the port of shipment of coal from the Kianga and Moura coal-fields in central Queensland which are being developed for export purposes. Commonwealth financial assistance has been made available to ensure that work on the loading facilities can proceed as expeditiously as possible.

Of the total Commonwealth assistance of £200,000, £100,000 is to be a grant and £100,000 an interest-bearing loan repayable over fifteen years. Payments to the State in 1963-64 amounted to £80,000 and a final payment of £120,000 was made in 1964-65.

10804/65.—**3** 

#### BRIGALOW LANDS DEVELOPMENT

The Brigalow Lands Agreement Act 1962 authorized an Agreement with the State of Queensland for the provision of financial assistance by the Commonwealth for the development of an area of land of approximately 4,271,000 acres in the Fitzroy River Basin. The purpose of the assistance is to increase the production of beef cattle and other primary products and the supply of beef for export.

Commonwealth financial assistance is payable to the State in the form of interest-bearing advances, subject to an overall limit of  $\pounds7,250,000$ , to finance expenditure by the State on specified works during the period of five years ending 30th June, 1967. Repayment of capital, together with interest capitalized at 15th July, 1967, will be made by the State in equal half-yearly instalments over a period of twenty years commencing in 1968.

Payments by the Commonwealth to 30th June, 1965 amounted to £2,100,000. It is estimated that £1,000,000 will be provided in 1965-66. Payments in each year are shown in Table 31.

#### WEIPA DEVELOPMENT—QUEENSLAND

The Commonwealth has agreed to provide financial assistance to Queensland to finance harbour and township works to be carried out at Weipa in north Queensland.

Assistance will be provided in the form of an interest-bearing loan up to a maximum amount of £1,635,000. Payments by the Commonwealth in 1965-66 are expected to be £750,000.

# WESTERN AUSTRALIA NORTHERN DEVELOPMENT

The Western Australia (Northern Development) Agreement Act 1963 provides for payments to the State of Western Australia up to a total of £3,500,000, to be applied primarily to the construction of a new deep-water jetty at Broome and to the construction of further irrigation works within the first stage of the Ord Irrigation Project.

In the case of the Broome Jetty, 50 per cent. of the assistance is repayable with interest over a period of fifteen years. It is estimated that this work will cost approximately  $\pounds 1,500,000$ . Assistance towards the Ord Irrigation Project, which is by way of a grant, is expected to absorb the remainder of the  $\pounds 3,500,000$ .

Payments to the State amounted to  $\pounds 1,284,000$  in 1964-65 and it is expected that the remaining  $\pounds 1,133,000$  will be required in 1965-66.

Under a previous measure, the Western Australia Grant (Northern Development) Act 1958-1959, grants of £5,000,000 were made available for development of the northern part of the State. The bulk of this assistance was spent on the Ord River Diversion Dam and Main Irrigation Channel (Stage 1) and the Wyndham Jetty.

Details of payments and debt charges since 1958-59 are given in Table 32.

#### REPLACEMENT OF DERBY JETTY

The Derby Jetty Agreement Act 1962 provides for financial assistance up to £800,000 to be made available to the State of Western Australia towards the cost of constructing a new jetty with improved facilities at Derby, in the West Kimberleys region of Western Australia. Half of the assistance provided will be a non-repayable grant; the other half is to be repaid with interest over fifteen years.

The final payment of  $\pounds 150,000$  under the Agreement was made in 1964-65. Details of payments and debt charges in each year are given in Table 33.

#### EXMOUTH TOWNSHIP

The Commonwealth has agreed to contribute, by way of a grant, an amount of  $\pounds 565,000$  towards the cost of development by the Government of Western Australia of a township at Exmouth to serve an integrated United States/Australian community associated with the United States Naval Communication Station at North West Cape. The grant is to be made available on the basis of meeting one half of the expenditure by the State on the project up to the maximum of  $\pounds 565,000$ .

Under this arrangement £190,000 was expended in 1964-65 and it is estimated that the balance of £375,000 will be provided in 1965-66.

#### WESTERN AUSTRALIA WATER SUPPLY

Under the Western Australia Grant (Water Supply) Act 1948-1957 the Commonwealth, within specified limits, assisted the State of Western Australia to finance the cost of construction of a comprehensive water supply scheme. The grant partly financed the reticulation of water to townships and homesteads in a wheat belt area of about 4,000,000 acres inland from Perth, and to towns along the Great Southern Railway from Beverley to Katanning. It also helped to finance an increased supply of water to the Eastern Goldfields area of the State. Commonwealth contributions under the Act were limited to £5,000,000.

The final payment was made by the Commonwealth in 1961-62. Payments in each year since the inception of the arrangements are shown in Table 34.

Under the Western Australia (South-west Region Water Supplies) Agreement Act 1965 the Commonwealth is to provide financial assistance of up to £5,250,000 by way of repayable interest-bearing advances to Western Australia for the purpose of accelerating works undertaken by the State to extend the comprehensive water supply scheme in the south-west portion of the State. The new areas to be served total approximately 4,000,000 acres, and Commonwealth assistance will extend over eight years beginning in July, 1965. The Commonwealth has undertaken to provide financial assistance on a £1 for £1 basis, and repayments spread over 15 years will commence ten years after each payment is made. An amount of £625,000 has been provided for payment to the State in 1965-66.

#### CHOWILLA RESERVOIR

The Commonwealth and the States of New South Wales, Victoria and South Australia agreed that construction of the Chowilla Reservoir on the River Murray in South Australia be undertaken as a work under the River Murray Waters Agreement, which was amended accordingly. The estimated cost of the work is approximately  $\pounds 17,500,000$  and this is to be shared equally by the four Governments. In 1963-64 the Commonwealth contribution was  $\pounds 50,000$ , and in 1964-65 it was  $\pounds 78,000$ . It is estimated that the Commonwealth's share in 1965-66 will be  $\pounds 200,000$ .

Under the Chowilla Reservoir Agreement Act 1963 the Commonwealth also agreed to provide assistance in the form of interest-bearing advances to New South Wales to cover its share of the capital cost of the Chowilla Reservoir. Repayment of each advance will begin ten years from the date on which it is made and will spread over a further period of ten years. Payments to New South Wales under the Agreement amounted to £50,000 in 1963-64 and to £78,000 in 1964-65; it is estimated that £200,000 will be required in 1965-66. Details of payments and debt charges are shown in Table 35.

#### BLOWERING RESERVOIR

The Blowering Water Storage Works Agreement Act 1963 gives effect to an arrangement with the State of New South Wales for the construction of the Blowering Reservoir on the Tumut River for the control and conservation of water released into that river as a result of the operation of the Snowy Mountains Scheme. Under the arrangement the bulk of the work involved will be undertaken by the Snowy Mountains Hydro-electric Authority as the agent of, and at the expense of, the State of New

South Wales. The Commonwealth will, however, finance half of the total cost incurred by the State, by means of interest-bearing loans. Repayment of each advance will begin ten years from the date on which it is made and will spread over a further period of ten years.

Payments by the Commonwealth to 30th June, 1965, amounted to £2,166,000. It is estimated that  $\pounds$ 3,050,000 will be provided in 1965-66. Details of payments and debt charges in each year are shown in Table 36.

## FLOOD MITIGATION

Under an arrangement with certain local authorities the State of New South Wales provides  $\pounds 2$  for each  $\pounds 1$  expended by the local authority on flood mitigation works on the Macleay, Clarence, Richmond, Tweed and Shoalhaven Rivers. In the case of the Hunter River, the State subsidizes local authority expenditure at the rate of  $\pounds 3$  for  $\pounds 1$ .

The New South Wales Grant (Flood Mitigation) Act 1964 provides for a grant up to £2,750,000 to the State of New South Wales, on a matching expenditure basis, towards the cost of carrying out flood mitigation works on these rivers. The grant is to be paid over the period of six years which commenced in July, 1963, and it is expected that with this assistance the great bulk of the works planned by the local authorities will be completed within that period.

Commonwealth expenditure in 1964-65 amounted to  $\pounds 650,000$  and it is expected that  $\pounds 570,000$  will be required in 1965-66. Payments in each year are shown in Table 37.

# MENTAL HEALTH INSTITUTIONS

Under the States Grants (Mental Institutions) Act 1955 the Commonwealth undertook to provide financial assistance up to £10,000,000 towards capital expenditure incurred by the States, with the Commonwealth's approval, on mental institutions. The Commonwealth assistance was on the basis of one-third of the total expenditures by the States with a specified limit for each State.

The States Grants (Mental Health Institutions) Act 1964 which repealed the 1955 legislation, authorizes assistance to the States amounting to one-third of the total expenditure incurred by them, with the Commonwealth's approval, in building and equipping mental health institutions. There are no specified limits to the maximum amounts of this assistance, which applies for a period of three years commencing 1st July, 1964; but assistance will be available to a State after 30th June, 1967 to the extent that the total payments it has received by that date fall short of its original entitlement specified in the 1955 Act.

Expenditure by the Commonwealth in 1964-65 amounted to £1,252,000 and expenditure in 1965-66 is estimated at £2,000,000. Table 38 shows payments to each State under the scheme since its inception in 1955-56.

#### TUBERCULOSIS HOSPITALS

Under the *Tuberculosis Act* 1948 the Commonwealth undertook to reimburse the States for all capital expenditure, approved by the Commonwealth, on buildings, furnishings, equipment and plant for the diagnosis, treatment and control of tuberculosis. Expenditure in 1964-65 was  $\pounds$ 348,000. In 1965-66 expenditure is estimated to total  $\pounds$ 302,000, this being the amount the States are likely to claim during the year in reimbursement of their expenditure on approved capital items.

Commonwealth grants for capital purposes under the *Tuberculosis Act* 1948 since they began in 1949-50 are shown in Table 39. (See Chapter V. and Table 21 for Commonwealth grants for maintenance expenditures on tuberculosis hospitals.)

### CHAPTER VIII.-ADDITIONAL ASSISTANCE GRANTS

In addition to grants for general revenue purposes and payments for specific purposes (outlined in earlier Chapters) the Commonwealth has on occasion made available to the States non-repayable additional assistance grants. These additional amounts of financial assistance have been made to enable the States to meet particular circumstances of the time. They have not been comparable with the general revenue grants in that they have not been made available to the States necessarily, or in some cases even chiefly, for general budgetary purposes; nor have they been determined, either as to total amount or as to their distribution among the States, on the basis of any particular formula. Rather, their size and allocation have been determined by the Commonwealth in the light of its own assessment of the circumstances at the time. Because of the broad scope of the purposes for which these grants have been made available, they can also be distinguished from the payments made by the Commonwealth to the States for specific purposes.

In February, 1958, following a Premiers' Conference and Loan Council meeting, the Commonwealth agreed to make available to the States in the remaining part of 1957-58 an amount of £5,000,000 by way of non-repayable grant to assist the overall financial position of State Governments which had been adversely affected, in varying degrees, by drought and by economic conditions. In making its offer, the Commonwealth indicated that the grant was to be used to give most help in those areas which had been affected by adverse conditions and particularly to assist the States in stimulating home-building activity. The grant of £5,000,000 was allocated, as proposed by the Commonwealth, on the basis that £4,000,000 be distributed according to the then tax reimbursement grants formula with the remaining £1,000,000 divided equally between New South Wales and Queensland, these being the States most severely affected by the drought and in which unemployment had increased most. The resulting allocation is shown in Table 6.

As one of the measures adopted by the Commonwealth in February, 1962 to stimulate employment, an additional assistance grant of £10,000,000 was made available to the States on a non-repayable basis for expenditure on employment-giving activities, chiefly in the works field, in the remainder of that financial year. This grant was allocated by first setting aside £2,500,000 for Queensland and £500,000 for Tasmania, the two States in which unemployment as a percentage of the work force was significantly above the national level, and then allocating the remaining £7,000,000 among all States on the same basis as the State works and housing programmes for 1961-62 as determined by the Loan Council. The resulting figures are set out in Table 6.

At the Loan Council meeting and Premiers' Conference in June, 1962 the Commonwealth offered to make available to the States in 1962-63 a further non-repayable grant of £12,500,000 to be expended by the States at their discretion on employment-giving activities. As some of the Premiers indicated at the Conference that their budgetary problems were likely to be more difficult in 1962-63 than in the previous year, the Commonwealth made it clear that, while the overall purpose of the grant was to stimulate employment, in pursuing that general objective each State was free to utilize any part of its share of the grant to assist its budget. This grant was allocated on the same basis as the £10,000,000 grant made available in 1961-62 with the extra £2,500,000 distributed in proportion to the State works and housing programmes for 1962-63.

A further amount of £5,000,000 for expenditure on employment-giving activities in 1962-63 was offered to the States at the Loan Council meeting and Premiers' Conference in February, 1963, thus bringing the total additional assistance grant for that financial year to £17,500,000. As this amount of £5,000,000 was allocated among the States in proportion to their 1962-63 borrowing programmes, £14,500,000 of the total grant was allocated in proportion to the States' works and housing programmes. Of the additional £3,000,000, Queensland received £2,500,000 and Tasmania £500,000.

In offering this extra £5,000,000 to the States, it was stipulated that the money should be expended on employment-giving activities and that this expenditure should be over and above that made under the States' works and housing programmes.

At the Loan Council meeting and Premiers' Conference held in June, 1963, the Commonwealth agreed to provide a non-repayable additional assistance grant of  $\pounds 20,000,000$  for employment-giving expenditure by the States in 1963-64. This grant was allocated among the States in proportion to their 1962-63 borrowing programmes for works and housing. As was the case with the grant made available in June, 1962, each State was free to use any part of its share to assist its budget if it so desired. Table 6 shows the distribution of this grant between the States.

### CHAPTER IX.--LOAN COUNCIL BORROWING PROGRAMMES

The Australian Loan Council is constituted under the 1927 Financial Agreement between the Commonwealth and the States. It is composed of representatives of the Commonwealth and each State Government and co-ordinates the public borrowings of the Commonwealth and the States. The Prime Minister or his nominee is the representative of the Commonwealth and Chairman of the Council, and the six Premiers or their nominees represent the States. The Loan Council determines the annual borrowing programmes of the Commonwealth and the States, together with the terms and conditions on which loans to finance these programmes are to be raised.

Subject to the decisions of the Loan Council, the Commonwealth arranges for all borrowings for or on behalf of the Commonwealth and the States and for all conversions, renewals, redemptions and consolidations of the public debts of the Commonwealth and of the States. Borrowings by the Commonwealth for defence purposes are not subject to the approval of the Loan Council or to the other provisions of the Financial Agreement.

Under a "Gentlemen's Agreement", originally entered into by the members of the Loan Council in 1936, the Loan Council approves an aggregate yearly borrowing programme for semi-government and local authorities proposing to raise more than £100,000 in a year. Individual borrowings by each of these authorities are also subject to Loan Council approval.

Since 1962-63 the Loan Council has placed no overall limit on the programmes of authorities for which State Governments approve individual borrowing programmes of £100,000 or less although, in earlier years, specific overall programmes had also been approved for these smaller authorities. The terms and conditions on which the Loan Council from time to time approves loan raisings are the same for both the larger and the smaller authorities.

Borrowings approved by the Loan Council for semi-government and local authorities in each year since 1947-48 are shown in Table 42. These figures are shown on a per capita basis in Table 43.

Since World War II. the loan requirements of Australian public authorities have progressively increased, although the Commonwealth has financed its own capital expenditures mainly from revenue. In the early post-war years there was little difficulty in raising the sums sought. However, in the years 1951–52 to 1961–62 and again in 1964–65 borrowings from the public fell short of the full amount of the approved Loan Council programmes. This shortfall on borrowings for State works and housing was met mainly through special loans taken up by the Commonwealth at the end of each financial year on terms and conditions similar to those offered in the Commonwealth public loans raised during that year. The major part of the funds subscribed to these special loans by the Commonwealth was derived from general revenue sources. In 1962–63 and 1963–64 no special assistance was required from the Commonwealth.

On the understanding that the States would agree to certain conditions designed to promote governmental loan raisings, the Commonwealth has offered at the beginning of the financial year to support the Loan Council borrowing programme to the extent that borrowings on the market are inadequate to complete the programme, and to make monthly advances to the States at an annual rate based on that programme, subject to review later in the financial year. Thus, for the current financial year, the Commonwealth indicated at the June, 1965 meeting of the Loan Council that it would be prepared to assist the 1965-66 borrowing programme in the following ways:---

- (i) to make available to the States the Australian currency equivalent of any new money loans raised for general purposes overseas;
- (ii) to leave to the States to the extent necessary to complete the borrowing programmes for State works and housing purposes, the whole of the proceeds derived from public loan raisings in Australia (other than the proceeds of borrowings for temporary purposes) after deducting amounts required to meet encashments of Special Bonds and redemptions which cannot be financed out of the National Debt Sinking Fund;
- (iii) to arrange, to the maximum possible extent, for the refinancing of maturing loans that may not be fully converted;
- (iv) to make monthly advances to the States for the first eight months of the financial year at an annual rate not exceeding £295,000,000, the position then to be reviewed and a tentative determination made, not later than 28th February, 1966, of the amount of special loan assistance the Commonwealth may provide from its own resources.

The extent of the assistance provided by the Commonwealth for works and housing purposes in each year since 1951-52 is shown in the following table.

				Commonwealth Assistance	Works and Housing Programmes	Commonwealth Assistance as per cent. of Programme
				£'000	£'000	Per cent.
1951-52	••	••		152,865	227,060	67

Details of the manner in which the States' works and housing programmes have been financed since 1955-56 are given in Table 41. (Details of financing for the period 1951-52 to 1954-55 are given in "Commonwealth Payments to or for the States, 1964-65".)

The Commonwealth has, since 1945-46, made advances to the States for War Service Land Settlement. Borrowings to finance these advances are made under the defence powers of the Commonwealth, and are therefore not included in Loan Council programmes approved under the Financial Agreement.

Legislation passed in 1961 extended for a further five years from 1st July, 1961 the operation of the Commonwealth and State Housing Agreement. Under successive Agreements the Commonwealth has, since 1945, provided repayable advances for housing purposes at concessional rates of interest to States participating in the Agreements. The amounts advanced by the Commonwealth to the States each year have been nominated by the States from within their allocations of the approved borrowing programme and, in aggregate, have become the Commonwealth's share of the borrowing programme for works and housing for that year.

The amounts advanced under the Agreements in each year since 1945-46, together with the States' works programmes in those years, are shown in Table 40. The total programmes during the period since 1951-52 are shown on a per capita basis in Table 7.

### TABLES

The tables which follow are divided into four main groups—(A) Summary, (B) General Revenue Grants, (C) Specific Purpose Payments and (D) Loan Council Borrowing Programmes. In general, the tables giving historical sets of figures cover the period from the inception of the payment concerned, but there are some important exceptions. It should be noted that, because of rounding, details in tables may not add to the totals.

The following table reconciles the total of payments to or for the States shown herein for 1964-65 and 1965-66 with the total shown in Item No. 2 of Statement No. 3 accompanying the Budget Speech for 1965-66:---

				1964-65	1965–66 (Estimate)

### TABLE 1.-TOTAL COMMONWEALTH PAYMENTS TO OR FOR THE STATES, 1964-65

£'000

(a) including some capital expenditure on underground water investigations.
 (b) In addition a grant of £280,000 was made from the Coal Industry Fund.
 (c) From Loan Fund.
 (d) The figures shown refer to the finance being made available to New South Wales to cover its share of the capital cost. In addition, the Commonwealth is providing a quarter share of the capital cost of the work. See Chapter VIL, p. 35.

(a) No estimate is available of the amounts payable to each State.
(b) Including some capital expenditure on underground water investigations.
(c) Because no State dissection is available of the estimated amounts payable in respect of research grants, capital expenditure on university projects in teaching hospitals (see footnote (f)), and colleges of advanced education, the totals shown for individual States do not add to the totals shown for the six States.
(d) Excluding grants for capital expenditure on university projects in teaching hospitals, for which no estimated to total ±500,000 in 1965-66.
(e) In addition a grant of £246,000 is expected to be made from the Coal Industry Fund.
(f) The figures shown refer to the finance being made available to New South Wales to cover its share of the capital cost. In addition, the Commonwealth is providing a quarter share of the capital cost of the work. See Chapter VII, p. 35.

# TABLE 3.—TOTAL COMMONWEALTH PAYMENTS TO OR FOR THE STATESPER HEAD OF POPULATION,\* 1964-65

These per capita figures have been calculated using the Commonwealth Statistician's estimates of r 1964-65 Bulletin No. 3.
 (a) Including some capital expenditure on underground water investigations.
 (b) In addition a grant of 1s, 4d, per head of population was made from the Coal Industry Fund.
 (c) From Loan Fund.
 (d) See footnote (d) to Table 1.

These per capita figures have been calculated using the Commonwealth Statistician's estimates of mean populations, as published in Commonwealth Finance, 1964-65, Bulletin No. 3.
(a) No estimate is available of the amounts payable to each State.
(b) Including some capital expenditure on underground water investigations.
(c) Because no State dissection is available of the estimated amounts payable in respect of research grants, capital expenditure on university projects in teaching hospitals (see footnote (f)), and colleges of advanced education, the totals shown for individual States do not add to the totals shown for the six States.
(d) Excluding grants for capital expenditure on university projects in teaching hospitals. for which no estimate is available of the amounts payable to each State but which are estimated to total 11d. per head in 1965-66.
(e) In addition, it is estimated that a grant of 1s. 2d. per head will be made from the Coal Industry Fund.
(f) See footnote (f) to Table 2.

						and the second					

(a) Because no State dissection is available of the estimated amounts payable in 1965-66 in respect of research grants, capital expenditure on university projects in teaching hospitals and colleges of advanced education, the totals shown for individual States do not add to the totals shown for the six States.
(b) No additional assistance grants were paid in the years 1958-59 to 1960-61 inclusive. None has been paid since 1963-64.
(c) Includes carry-over payment from 1950-51 of £3,360,000.
(d) Includes state. allocation of £2,000,000 in respect of finance for the Olympic Village.
(e) Excludes \$2,000,000 allocated to the Commonwealth for emergency wheat storage.
(f) Includes \$2,000,000 which was used by the Commonwealth to finance advances for housing in 1963-64.
(g) Excludes £3,000,000 which can used by the Commonwealth to finance advances for housing in 1963-64.

These per capita figures have been calculated using the Commonwealth Statistician's estimates of mean populations as published in Commonwealth Finance, 1964-65, Bulletin No. 3.
(a) See footnote (a) to Table 6.
(b) No additional assistance grants were paid in the years 1958-59 to 1960-61 inclusive. None has been paid since 1963-64.
(c) Includes carry-over payment from 1950-51 of 7s. 11d. per head
(d) Includes at 55. 8d. per head in respect of finance for the Olympic Village.
(e) Excludes special allocation of £2 18s. 9d. per head
(g) Excludes 9s. 4d. per head which was used by the Commonwealth to finance advances for housing in 1963-64.
(h) As agreed upon at June, 1965 Loan Council meeting.

### SECTION B: GENERAL REVENUE GRANTS Subject

TABLE NO.

8. Total General Revenue Grants, 1942-43 to 1965-66

9. Tax Reimbursements Grants-Formula and Supplementary Grants, 1942-43 to 1958-59

10. Special Grants, 1910-11 to 1965-66

10804/65.--4

49

#### TABLE 8.-TOTAL GENERAL REVENUE GRANTS, 1942-43 TO 1965-66

(a) In the years 1942-43 to 1945-46 the amounts include entertainments tax reimbursement grants. In 1945-46, 1946-47, 1949-50 and each subsequent year the amounts include supplementary grants where these were paid. See Table 9.
(b) The Commonwealth also provided for the States in these years additional assistance grants to meet special circumstances. See Chapter VIII. and Table 6.
(c) Includes additional amounts of £1,024,000 for Victoria, £339,000 for Western Australia and £97,000 for Tasmania paid under the States Grants Act 1962. See Chapter III., p.14.
(d) See footnote (a) to Table 10.

### TABLE 9.-TAX REIMBURSEMENT GRANTS, 1942-43 TO 1958-59

£'000

(a) Includes annual amounts of entertainments tax reimbursement grants as follows:----

Entertainments Tax Reimbursement Total Tax Reimbursement Income Tax Reimbursement New South Wales Victoria ... Queensland South Australia Western Australia Tasmania ... 15,356 6,517 5,821 2,361 2,546 888 15,517 6,890 5,821 2,458 2,644 925 161 373 · ... ... ... • • • • • • 97 98 37 33,489 766† 34,255† Total .. . . . . . .

† Because the legislation came into operation on 1st October, 1942, the total amount paid as entertainments tax reimbursement in 1942-43 was in fact £192,000 less than the amount shown here. The total tax reimbursement grant for 1942-43 was, therefore, £34,063,000.
(b) Paid on recommendation of the Commonwealth Grants Commission.
(c) The Commonwealth also provided for the States in this year an additional assistance grant to meet special circumstances. See Chapter VIII., and Table 6.

# TABLE 10.—SPECIAL GRANTS PAID BY THE COMMONWEALTH TO STATES,1910–11TO1965–66

52

£'000

(a) From 1949-50 special grants have been paid in two parts, one part representing the advance payment for the current financial year and the other representing the adjustment to the advance payment made two years earlier. The figures shown here are the amounts actually paid each year. Figures of final special grants paid in respect of each year from 1959-60 are given in Chapter III.
 (b) Adjustments to special grants for 1957-58 and 1958-59. The amounts were £399,000 and £1,027,000, respectively.

### 523

#### SECTION C: SPECIFIC PURPOSE PAYMENTS

SUBJECT

- 11. Total Specific Purpose Payments, 1952-53 to 1965-66
- 12. Interest and Sinking Fund Payments under the Financial Agreement, 1927-28 to 1965-66
- 13. Universities, Grants for, 1951-52 to 1965-66

TABLE NO.

- 14. Natural Disasters, Payments in respect of, 1949-50 to 1965-66
- 15. Coal Mining Industry Long Service Leave, Appropriations for, 1949-50 to 1965-66
- 16. Road Safety Practices, Grants for Promotion of, 1947-48 to 1965-66
- 17. Eyre and Barkly Highways, Grants for Maintenance of, 1959-60 to 1965-66
- 18. Dairy Industry Extension Services, Grants for, 1948-49 to 1965-66
- 19. Agricultural Advisory Services, Grants for Expansion of, 1952-53 to 1965-66
- 20. Cattle Tick Control and Research, Grants to New South Wales for, 1949–50 to 1965–66
- 21. Tuberculosis Hospitals, Grants for Maintenance of, 1949-50 to 1965-66
- 22. Blood Transfusion Services, Grants for, 1953-54 to 1965-66
- 23. Roads, Payments to States for, under Aid Roads Acts and Comparable Legislation, 1923-24 to 1965-66
- 24. Roads, Allocations for, under Aid Roads Acts and Comparable Legislation, 1923-24 to 1958-59
- 25. Railway Projects, Payments for, 1951-52 to 1965-66
- 26. Railway Projects, Debt Charges on Loans for, 1952–53 to 1965–66
- 27. Meat Production, Grants to Queensland and Western Australia for Encouragement of, 1950-51 to 1965-66
- 28. Beef Cattle Roads, Payments for, 1961–62 to 1965–66
- 29. Gordon River Road, Grants to Tasmania for, 1963-64 to 1965-66
- 30. Loading Facilities for Export of Coal, Payments for, 1961–62 to 1965–66
- 31. Brigalow Lands Development, Payments to Queensland for, 1962-63 to 1965-66
- 32. Northern Development, Payments to Western Australia for, 1958-59 to 1965-66
- 33. Derby Jetty, Payments to Western Australia for Replacement of, 1958-59 to 1965-66
- 34. Water Supply, Payments to Western Australia for, 1949–50 to 1965–66
- 35. Chowilla Reservoir, Payments to New South Wales for, 1963-64 to 1965-66
- 36. Blowering Reservoir, Payments to New South Wales for, 1963–64 to 1965–66
- 37. Flood Mitigation Works, Grants to New South Wales for, 1963-64 to 1965-66
- 38. Mental Health Institutions, Grants for Capital Expenditures on, 1955-56 to 1965-66
- 39. Tuberculosis Hospitals, Grants for Capital Expenditures on, 1949–50 to 1965–66

### TABLE 13.---GRANTS FOR UNIVERSITIES, 1951-52 TO 1965-66\*

£'000

For description of these payments, see Chapter V, pp. 20-21 and Chapter VII, page 29.
(a) Includes a grant for part of the year 1950-51.
(b) Includes a supplementary grant of £135,000 for the University of New South Wales.
(c) Granti expenditure purposes commenced for the first time in 1957-58.
(d) Excluding grants for capital expenditure on university projects in teaching hospitals, for which no estimate is available of the amounts payable to each State but which are estimated to total £500,000 in 1965-66.

### TABLE 14 .-- PAYMENTS IN RESPECT OF NATURAL DISASTERS, 1949-50 TO 1965-66\* £'000

For description of these payments, see pp. 21-22.
(a) The incidence of these payments cannot be foreseen. The estimate for 1965-66 represents the balance of a grant offered by the Commonwealth in 1964-65.
(b) The figures for these years include the following payments for roads purposes financed from the Commonwealth Aid Roads (Supplementary) Trust Account: 1956-57, £162,000; 1957-58, £335,000; and 1958-59, £156,000.
(c) Including payments, amounting in total to £22,000, and representing half the losses incurred by Queensland in making loans, at concessional rates of interest, to dairy farmers affected by droughts in 1946 and 1951.

For description of these payments, see Chapter VI.
(a) The amounts paid to the States under Aid Roads and comparable legislation did not coincide with allocations made by the Commonwealth under such legislation before 1959-60. Amounts allocated for roads by the Commonwealth under Aid Roads and comparable legislation in each year since 1923-24 are shown in Table 24.
(b) These figures do not include expenditures in the States on strategic roads, roads serving Commonwealth purposes and road safety.
(c) The figures for 1957-58 and 1958-59 include the following amounts which each State received from the £3,000,000 special assistance grant for roads allocated in each of those years: New South Wales, £800,000; Victoria, £700,000; Queensland, £500,000; South Australia, £325,000; Western Australia, under Section 4 (3) of the 1959 Act and a final adjusting payment of £1,669,000 to complete commitments under the 1954 Act. This latter payment was distributed: New South Wales, £458,000; Victoria, £293,000; Queensland, £321,000; South Australia, £187,000; Western Australia, £326,000; and Tasmania, £150,000; Victoria, £293,000;

### TABLE 24 .-- ALLOCATIONS FOR ROADS UNDER AID ROADS ACTS AND COMPARABLE LEGISLATION, 1923-24 TO 1958-59\*(a)

£'000

\* For description of these allocations, see Chapter VI.

1 ĥ

For description of these allocations, see Chapter VI.
(a) Since 1958-59 the amounts allocated for roads under Aid Roads legislation have coincided with payments under such legislation. The actual payments made to the States under Aid Roads legislation in each year since 1923-24 are shown in Table 23.
(b) From 1947-48 to 1958-59 specific provision for these purposes was made in the various Commonwealth Aid Roads Acts: in other years any Commonwealth expenditures have been met from annual appropriations. Portions of the amounts shown in this column were used to finance grants for promotion of road safety practices and for maintenance of the Eyre and Barkly Highways. See Chapter VI.
(c) The figures for 1957-58 and 1958-59 include the £3,000,000 special assistance grant for roads allocated in each of those years. This grant was arbitrarily distributed: New South Wales, £800,000; Victoria, £700,000; Queensland, £500,000; South Australia, £325,000; Western Australia, £475,000; Tasmania, £150,000; and Commonwealth purposes, £50,000.

TABLE 25.-PAYMENTS FOR RAILWAY PROJECTS, 1951-52 TO 1965-66\*

£'000

• For description of these payments, see Chapter VII, pp. 30-31.

(a) Amounts provided from Loan Fund.
(b) Figures for grants are increased and for loans decreased in each year after 1951-52 by the rebates allowable under clause 16 (3.) of the Agreement.
(c) Includes a contribution of £14,000 repaid in 1964-65.
(d) Includes advance of £8,000 repaid in 1964-65.
(e) Expenditure less repayment of advance of £8,000 made in 1963-64.

1965–66( <i>c</i> )	••	••				,   	·			l

(a) Excludes £3,200,000 allocated to the Commonwealth for emergency wheat storage.
(b) Includes special allocation of £2,000,000.
(c) As agreed upon at the June, 1965 meeting of the Loan Council.
(d) Excludes £3,360,000 which was not used for advances to the States for housing until 1951-52.
(e) Tasmania withdrew from the Commonwealth and State Housing Agreement in 1950-51 and repaid all principal owing out of loan money allocated by the Loan Council to the State in that year. Tasmania's housing requirements in the period shown were included in the State Government's loan programmes. Tasmania has been a party to the Commonwealth and State Housing Agreements since then.
(f) Includes carry-over payment from 1950-51 of £3,360,000.
(g) Includes £2,000,000 in respect of finance for the Olympic Village.
(k) Excludes £5,000,000 which was used by the Commonwealth to finance advances for housing in 1963-64.

### TABLE 41,-THE FINANCING OF STATE WORKS AND HOUSING PROGRAMMES, 1955-56 TO 1964-65

£'000

(a) Investment of Australian currency proceeds of International Bank loans.
(b) Includes £3,200,000 advanced to the Australian Wheat Board in 1955-56 for emergency wheat storage.
(c) Includes £2,000,000 to finance advances which the Commonwealth agreed to make to Queensland to assist in the rehabilitation of the Mount Isa—Townsville—Collinsville raifway.
(d) Excludes amount representing investment of International Bank loan greeds. See (a).
(e) Special Bonds are shown net of redemptions, which amounted to £3,215,000 in 1959-60, £7,597,000 in both 1960-61 and 1961-62, £7,849,000 in 1962-63, £8,490,000 in 1963-64 and £16,819,000 in 1964-65.
(f) Includes £5,000,000 set aside in 1962-63 to finance advances to the States for housing in 1963-64. See (h).
(h) Includes £5,000,000 set aside from Special Bond raisings to finance advances to the States for housing in 1963-64. See (f).

(a) The smaller authorities are those for which State Governments approve borrowings of £100,000 or less in a financial year (less than £100,000 in the years 1947-48 to 1961-62, inclusive).
(b) Includes borrowings totalling £8,372,000 which were made following the decision of the Loan Council at its February, 1962 meeting to permit the smaller authorities to borrow an additional £100,000 uring the remainder of the financial year, subject to State Government approval.
(c) No overall limit was set by the Loan Council on borrowings by authorities with original programmes of £100,000 or less in 1962-63. Following a decision of the Loan Council in February, 1963, these bodies were permitted to borrow in excess of £100,000 during 1962-63, provided the excess was included in borrowings against the programme for the larger authorities. The excess is in the figures in Part I above.
(d) No overall limit was set by the Loan Council on borrowings by authorities for which State Governments approve programmes of £100,000 or less.
