TREASURER

PARLIAMENT HOUSE CANBERRA ACT 2600

President of the Senate Australian Senate Parliament House CANBERRA ACT 2600

Speaker House of Representatives Parliament House CANBERRA ACT 2600

Dear Mr President Dear Mr Speaker

I hereby submit Portfolio Additional Estimates Statements in support of the 2006-07 Additional Estimates for the Treasury Portfolio.

These statements have been developed, and are submitted to the Parliament, as a statement on the funding requirements being sought for the Portfolio.

I present these statements by virtue of my ministerial responsibility for accountability to the Parliament and, through it, the public.

Yours sincerely

Peter Costello

USER GUIDE TO THE PORTFOLIO ADDITIONAL ESTIMATES STATEMENTS

USER GUIDE

INTRODUCTION

The purpose of the Portfolio Additional Estimates Statements (PAES), like that of the Portfolio Budget Statements, is to inform Senators and Members of Parliament of the proposed allocation of resources to Government outcomes by agencies within the portfolio. However, unlike the Portfolio Budget Statements, the PAES summarise only the *changes* in resourcing by outcome since the Budget, that is, they do not include a complete resourcing table for the agency. The PAES include new measures, summarise the changes by Appropriation Bill and, where relevant, by Special Appropriation and Special Account.

The PAES facilitate understanding of the proposed appropriations in Appropriation Bills (Nos. 3 and 4) 2006-07. In this sense the PAES is declared by the Additional Estimates Appropriation Bills to be a 'relevant document' to the interpretation of the Bills according to section 15AB of the *Acts Interpretation Act* 1901.

Whereas the *Mid-Year Economic and Fiscal Outlook* 2006-07 is a mid-year budget report which provides updated information to allow the assessment of the Government's fiscal performance against its fiscal strategy, the PAES update the most recent budget appropriations for agencies within the portfolio.

STRUCTURE OF THE PORTFOLIO ADDITIONAL ESTIMATES STATEMENTS

The PAES are presented in three parts with subsections.

User guide

Provides an introduction explaining the purpose of the PAES as well as information in relation to the styles and conventions used.

Portfolio overview

Provides an overview of the portfolio, including a chart that outlines the outcomes for agencies in the portfolio.

Agency additional estimates statements

A statement (under the name of the agency) for each agency affected by Additional Estimates.

Section 1: Agency overview and resources, variations and measures	This section details the link between the resources appropriated, savings, the impact of any post-Budget measures, and their application to the outputs and administered items (usually programmes) that contribute to the achievement of outcomes. This section also reports changes to resources from other sources; changes to estimates of expenses from Special Appropriations; and changes to estimated Special Account flows.
Section 2: Revisions to agency outcomes	This section details changes to planned Government outcomes, or to the contributing administered items and agency outputs.
Section 3: Budgeted financial statements	This section contains revisions to the budgeted financial statements in accrual format covering the Budget year, the previous year and the three forward years for each agency.
Glossary	Explains key terms.

STYLES AND CONVENTIONS USED

- (a) The following notations may be used:
 - nil
 - .. not zero, but rounded to zero
 - \$m \$ million
- (b) Figures in tables and in the text may be rounded. Discrepancies in tables between totals and sums of components are due to rounding.

ENQUIRIES

Should you have any enquiries regarding this publication please contact Sallyann Mugford in the Treasury on (02) 6263 2111.

PORTFOLIO OVERVIEW

There has been no change to the portfolio overview since the *Portfolio Budget Statements* 2006-07.

ADDITIONAL ESTIMATES AND VARIATIONS — PORTFOLIO LEVEL

Additional estimates for new measures are being sought for the Treasury, the Australian Competition and Consumer Commission, the Australian Taxation Office and the Productivity Commission. Explanations of additional estimates for these agencies are detailed in their respective section in the Portfolio Additional Estimates Statements.

Other variations to estimates have occurred for the Treasury, the Australian Office of Financial Management, the Australian Taxation Office and the Productivity Commission.

There are no additional estimates variations for the Australian Bureau of Statistics, the Australian Prudential Regulation Authority, the Australian Securities and Investments Commission, the Corporations and Markets Advisory Committee, the Inspector-General of Taxation, the National Competition Council and the Royal Australian Mint.

Figure 1: Portfolio structure and outcomes

Portfolio Minister - Treasurer

The Hon Peter Costello MP

Minister for Revenue and Assistant Treasurer

The Hon Peter Dutton MP

Parliamentary Secretary to the Treasurer

The Hon Chris Pearce MP

Department of the Treasury

Secretary: Dr Ken Henry

Outcome 1: Sound macroeconomic environment
Outcome 2: Effective government spending arrangements
Outcome 3: Effective taxation and retirement income arrangements

Outcome 4: Well functioning markets

Australian Bureau of Statistics

Acting Statistician: Ms Susan Linacre

Informed decision-making, research and discussion within governments and the community, based on the provision of a high quality, objective and responsive national statistical service

Australian Competition and Consumer Commission

Chairperson: Mr Graeme Samuel

To enhance social and economic welfare of the Australian community by fostering competitive,

efficient, fair and informed Australian markets

Australian Office of Financial Management

Chief Executive Officer: Mr Neil Hyden

To enhance the Commonwealth's capacity to manage its net debt portfolio, offering the prospect of savings in debt servicing costs and an improvement in the net worth of the Commonwealth over time

Australian Prudential Regulation Authority

Chairman: Dr John Laker

To enhance public confidence in Australia's financial institutions through a framework of prudential regulation which balances financial safety, efficiency, competition, contestability and competitive neutrality

Australian Securities and Investments Commission

Chairman: Mr Jeffrey Lucy AM

A fair and efficient market characterised by integrity and transparency and supporting confident and informed participation of investors and consumers

Australian Taxation Office

Commissioner: Mr Michael D'Ascenzo

Effectively managed and shaped systems that support and fund services for Australians and give effect to social and economic policy through the tax, superannuation, excise and other related systems

Corporations and Markets Advisory Committee

Convenor: Mr Richard St John

Fair and efficient financial markets characterised by integrity and transparency and supporting confident and informed participation of investors and consumers

Inspector-General of Taxation

Inspector-General: Mr David Vos AM

Improved administration of the tax laws for the benefit of all taxpayers

National Competition Council

Acting President: Mr David Crawford

The achievement of effective and fair competition reforms and better use of Australia's infrastructure for the benefit of the community

Productivity Commission

Chairman: Mr Gary Banks

Well-informed policy decision-making and public understanding on matters relating to Australia's productivity and living standards, based on independent and transparent analysis from a

community-wide perspective

Royal Australian Mint

Chief Executive Officer: Ms Janine Murphy

Satisfy the Reserve Bank of Australia's forecast for circulated coin

OVERVIEW

There has been no change to the overview included in the *Portfolio Budget Statements* 2006-07 (page 13).

Table 1.1: Department outcomes and output groups

Outcome	Description	Output groups
Outcome 1		
Sound macroeconomic	A sound macroeconomic environment is an	Output Group 1.1
environment	essential foundation for strong sustainable	Macroeconomic Group
	economic growth and the improved wellbeing of	
	Australians. It is characterised by stable prices,	
	low interest rates, healthy employment growth,	
	and a sustainable external position.	
Outcome 2		
Effective government	Government spending arrangements contribute	Output Group 2.1
spending arrangements	to the overall fiscal outcome but also influence	Fiscal Group
	strong sustainable economic growth and the	
	improved wellbeing of Australians.	
Outcome 3		
Effective taxation and	Taxation and retirement income arrangements	Output Group 3.1
retirement income	contribute to the overall fiscal outcome and	Revenue Group
arrangements	influence strong sustainable economic growth	
	and the improved wellbeing of Australians.	
Outcome 4		
Well functioning	Well functioning markets contribute to high	Output Group 4.1
markets	sustainable economic and employment growth	Markets Group
	and the improved wellbeing of Australians, by	
	enabling resources to flow to those parts of the	
	economy where they can be used most	
	productively. Well functioning markets operate	
	when investors and consumers have confidence	
	and certainty about the regulatory framework,	
	and are able to make decisions that are informed	
	and free of market distortions and impediments.	

ADDITIONAL ESTIMATES AND VARIATIONS TO OUTCOMES

The Treasury is seeking an additional \$0.5 million in departmental outputs through Appropriation Bill (No. 3) 2006-07 for measures relating to Tax Information Exchange Agreements — technical assistance (\$0.1 million) and Regulation Reform Agenda — coordination of implementation (\$0.4 million).

The Treasury is seeking an additional \$1.8 million in administered outputs through Appropriation Bill (No. 4) 2006-07 for compensation — companies regulation.

In addition, the Treasury is also seeking an additional \$14.1 million for administered assets and liabilities through Appropriation Bill (No. 4) 2006-07 for commitments for payments relating to the collapse of HIH (\$14.0 million) and commitments to the European Bank for Reconstruction and Development (\$0.1 million).

Revised performance information — 2006-07

The Treasury has not made any changes to its performance information since the *Portfolio Budget Statements* 2006-07.

Section 3: Budgeted financial statements

ANALYSIS OF BUDGETED FINANCIAL STATEMENTS

Departmental

The Treasury is budgeting for an operating deficit in 2006-07. This operating deficit is due to timing differences between the recognition of revenues and expenses.

The increase in appropriation revenue (\$0.5 million) since the 2006-07 Budget relates to funding received for new measures. Refer to Table 1.4 for further details of these measures.

The Treasury has a sound financial position and currently has sufficient cash to fund provisions and payables, and asset replacement, as they fall due.

Administered

For constitutional reasons the goods and services tax (GST) is levied by the Australian Government, and can therefore be technically considered Australian Government revenue under the reporting standards. The clear policy intent of the *Intergovernmental Agreement on the Reform of Commonwealth-State Financial Relations*, however, is that it is a state tax collected by the Australian Government in an agency capacity. Accordingly, GST related items recorded in the Treasury's administered budget statements, fully offset GST related items recorded by the Australian Taxation Office so that at a consolidated level the GST is not recorded by the Australian Government.

BUDGETED FINANCIAL STATEMENTS

Departmental financial statements

Budgeted departmental income statement

This statement provides a picture of the expected financial results for the Treasury by identifying full accrual expenses and revenues.

Budgeted departmental balance sheet

This statement shows the financial position of the Treasury. It enables decision-makers to track the management of assets and liabilities.

Budgeted departmental statement of cash flows

This statement provides information on the amount and nature of budgeted cash flows, categorised into expected cash flows from operating, investing and financing activities.

Departmental statement of changes in equity — summary of movement

This statement provides information on changes in the amount and nature of equity for the 2006-07 Budget year.

Departmental capital budget statement

This statement shows all proposed capital expenditure on non-financial assets, whether funded through capital appropriations for additional equity or from internally sourced funds.

Departmental property, plant, equipment and intangibles — summary of movement

This statement shows the budgeted movement in the Treasury's non-financial assets during the 2006-07 Budget year.

Schedule of administered activity

Schedule of budgeted income and expenses administered on behalf of government

This schedule identifies the income and expenses administered by the Treasury on behalf of the Australian Government.

Schedule of budgeted assets and liabilities administered on behalf of government

This schedule shows the assets and liabilities administered by the Treasury on behalf of the Australian Government.

Schedule of budgeted administered cash flows

This schedule shows cash flows administered by the Treasury on behalf of the Australian Government, categorised into expected cash flows from operating activities, investing activities and financing activities.

Schedule of administered capital budget

This schedule shows proposed administered capital expenditure.

Schedule of administered property, plant, equipment and intangibles — summary of movement

The Treasury does not have any administered property, plant, equipment or intangible assets.

The Treasury does not have any administered property, plant, equipment or intangibles.

NOTES TO THE FINANCIAL STATEMENTS

Basis of accounting

The Treasury's budgeted statements have been prepared on an accrual basis in accordance with:

- Australian Government's financial budgeting and reporting framework;
- Australian Accounting Standards (AAS), being the Australian Equivalent to International Reporting Standards (AEIFRS); and
- Consensus Views of the Urgent Issues Group.

The budgeted income statement and balance sheet have been prepared in accordance with the historical cost convention, except certain assets, which are at valuation.

Departmental and administered financial statements

Under the Australian Government's accrual budgeting framework, and consistent with Australian Accounting Standards, transactions that departments control (departmental transactions) are separately budgeted for and reported on from transactions departments do not have control over (administered transactions). This ensures that departments are only held accountable for the transactions over which they have control.

Departmental assets, liabilities, revenues and expenses are those items that are controlled by the department. Departmental expenses include employee and supplier expenses and other administrative costs, which are incurred by the department in providing its goods and services.

Administered items are revenues, expenses, assets or liabilities which are managed by the department on behalf of the Australian Government according to set Government directions. Administered expenses include subsidies, grants, and personal benefit payments and administered revenues include taxes, fees, fines and excises.

The ACCC has not made any changes to its outcome or outputs since the *Portfolio Budget Statements* 2006-07.

Revised performance information — 2006-07

The ACCC has not made any changes to its performance information since the *Portfolio Budget Statements* 2006-07.

Section 3: Budgeted financial statements

The budgeted financial statements contain estimates prepared in accordance with the Australian Government's financial budgeting and reporting framework, including the Australian Equivalents to International Financial Reporting Standards (AEIFRS) as well as specific guidelines issued by the Department of Finance and Administration. The statements show the planned financial performance for the 2006-07 Budget year and each of the forward years from 2007-08 to 2009-10. The statements also show the actual for 2005-06 for comparative purposes.

ANALYSIS OF BUDGETED FINANCIAL STATEMENTS

An analysis of the Australian Competition and Consumer Commission's (ACCC) budgeted financial statements, as reflected in the budgeted departmental financial statements for 2006-07, is provided below.

Departmental

Income Statement

ACCC is budgeting for a break-even operating result for 2006-07.

Total revenues and expenses are estimated to be \$108.1 million, an increase of \$2.5 million from the 2006-07 Budget. The increase is a result of increased funding for the Horticulture Mandatory Code of Conduct — enforcement measure.

Balance Sheet

The ACCC's budgeted net asset position of \$39.0 million represents an increase of \$4.0 million from the 2005-06 actual. The increase is primarily attributable to an equity injection of \$4.0 million associated with 2006-07 Budget measures.

Total assets are expected to increase by \$4.7 million to \$55.8 million from the 2005-06 actual. The increase reflects the leasehold, infrastructure plant and equipment and information technology investment flowing from measures. The receivables will decrease due primarily to the ACCC funding part of its new accommodation fit out.

The ACCC's primary liability continues to be accrued employee leave entitlements of \$13.1 million.

BUDGETED FINANCIAL STATEMENTS

Departmental financial statements

Budgeted departmental income statement

This statement provides a picture of the expected financial results for the ACCC by identifying full accrual expenses and revenues, and highlights whether the ACCC is operating at a sustainable level.

Budgeted departmental balance sheet

This statement shows the financial position of the ACCC. It enables decision-makers to track the management of the ACCC's assets and liabilities.

Budgeted departmental statement of cash flows

This statement identifies expected cash flows from operating, investing and financing activities.

Departmental statement of changes in equity — summary of movement

This statement shows the movement in the residual interest in assets after the deduction of liabilities.

Departmental capital budget statement

This statement shows all proposed capital expenditure funded from capital appropriation or from internal resources.

Departmental property, plant, equipment and intangibles — summary of movement

This statement shows the movement in the ACCC's non-financial assets over the 2006-07 Budget year.

Schedule of administered activity

Schedule of budgeted income and expenses administered on behalf of government

This schedule identifies the revenue and expenses administered on behalf of the Government. It also discloses administered revenues transferred to the Official Public Account.

Schedule of budgeted assets and liabilities administered on behalf of government

This schedule shows the assets and liabilities administered on behalf of the Government

Agency Additional Estimates Statements – ACCC

Schedule of budgeted administered cash flows

The schedule shows cash flows administered on behalf of the Government.

Schedule of administered capital budget

The ACCC does not have any administered capital.

Schedule of administered property, plant, equipment and intangibles — summary of movement

The ACCC does not have any administered property, plant, equipment or intangible assets.

Table 3.10: Schedule of administered capital budget

The ACCC does not have any administered capital.

Table 3.11: Schedule of administered property, plant, equipment and intangibles — summary of movement (Budget year 2006-07)

The ACCC does not have any administered property, plant, equipment or intangible assets.

NOTES TO THE FINANCIAL STATEMENTS

Accounting policy

The budgeted financial statements have been prepared on an accrual accounting basis in accordance with the:

- Finance Minister's Orders;
- Australian Equivalents to International Accounting Standards (AEIFRS); and
- Interpretations issued by the Australian Accounting Standards Board and the Urgent Issues Group that apply for the accounting period.

Departmental

Agency assets, liabilities, income and expenses are those items that are controlled and used by the ACCC in producing its outputs and include:

- computers, plant and equipment, and building fit out used in providing goods and services;
- liabilities for employee entitlements;
- revenue from appropriations or independent sources in payment for outputs;
 and
- employee, supplier and depreciation expenses incurred in providing agency outputs.

Departmental income

Revenue from Government represents the purchase of outputs from the ACCC by the Government and is recognised to the extent that it has been received into the ACCC's bank account.

Revenue from other sources, representing sales from goods and services, is recognised at the time that it is imposed on customers.

Departmental expenses — employees

Payments and net increases in entitlements to employees for services rendered in the financial year.

Departmental expenses — suppliers

Payments to suppliers for goods and services used in providing agency outputs.

Departmental expenses — depreciation and amortisation

Depreciable property, plant and equipment, building fit out and intangible assets are written-off to their estimated residual values over their estimated useful life, using the straight-line calculation method.

Departmental assets — financial assets

The primary financial asset relates to receivables. Financial assets are used to fund the ACCC's capital programme, employee entitlements, creditors and to provide working capital.

Departmental assets — non-financial assets

These items represent future benefits that the ACCC will consume in producing outputs. The reported value represents the purchase paid less depreciation incurred to date in using the asset.

Departmental liabilities — provisions and payables

Provision has been made for the ACCC's liability for employee entitlements arising from services rendered by employees. This liability includes unpaid annual leave and long service leave. No provision has been made for sick leave because the level of sick leave is less on average than the amount which employees are entitled to each year.

Provision has also been made for unpaid expenses as at balance date.

Administered

Administered items are those items incurred in providing programmes that are controlled by the Government and managed, or oversighted, by the ACCC on behalf of the Government. Administered revenues include fees and fines.

SUMMARY OF AGENCY SAVINGS

Table 1.8: Summary of agency savings

The AOFM does not have any agency savings.

OTHER REVENUES

Table 1.9 provides details of estimated administered and departmental revenues from sources, other than appropriations, for the AOFM for 2006-07. Departmental revenues are eligible items under the AOFM's net appropriation agreement under section 31 of the *Financial Management and Accountability Act 1997*, and as a result can be applied to the AOFM's departmental activities. The AOFM's administered revenues are not available to meet financial commitments of the AOFM and are returned to the Official Public Account.

Section 2: Revisions to agency outcomes

OUTCOMES, ADMINISTERED ITEMS AND OUTPUTS

Table 1.1 'Agency outcome and output group' lists the outcome and output group for the Australian Office of Financial Management (AOFM).

The AOFM has not made any changes to its outcome or outputs since the *Portfolio Budget Statements* 2006-07.

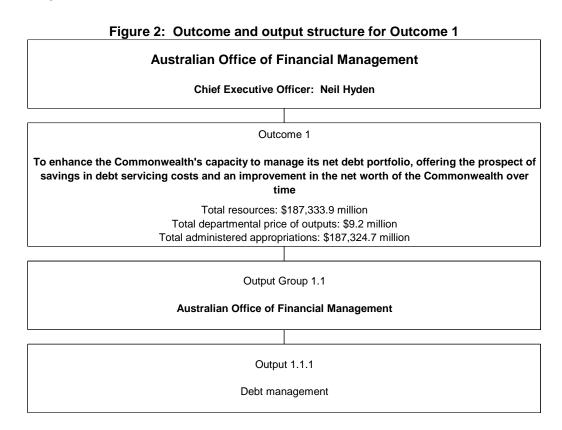

Table 2.1: Total resources for Outcome 1

Total departmental resources	8,932	9,199
Total estimated resourcing for Outcome 1	225,181,293	187,333,931

¹ The AOFM draws administered appropriations to make term deposit investments with the Reserve Bank of Australia. These deposits are used to manage the daily variations in the Commonwealth's cash balances in the Official Public Account (OPA). The cash flows into and out of the OPA are highly variable from day to day and so in consequence are the number, size and timing of term deposits. The deposits are financing transactions.

Revised performance information — 2006-07

The AOFM has not made any changes to its performance information since the *Portfolio Budget Statements* 2006-07.

Section 3: Budgeted financial statements

Budgeted agency and administered financial statements and related notes for the Australian Office of Financial Management (AOFM) are presented in this section. The financial statements are produced for 2005-06 (actual results), 2006-07 (revised estimates) and three forward years. The financial statements should be read in conjunction with the accompanying notes.

ANALYSIS OF BUDGETED FINANCIAL STATEMENTS

There have been no significant changes to the analysis of AOFM's budgeted financial statements since the *Portfolio Budget Statements* 2006-07.

BUDGETED FINANCIAL STATEMENTS

Departmental financial statements

Budgeted departmental income statement

This statement provides a picture of the expected financial results for the AOFM by identifying full accrual expenses and revenues.

Budgeted departmental balance sheet

This statement shows the financial position of the AOFM. It enables decision-makers to track the management of the agency's assets and liabilities.

Budgeted departmental statement of cash flows

This statement provides information on the amount and nature of budgeted cash flows, categorised into expected cash flows from operating, investing and financing activities.

Departmental statement of changes in equity — summary of movement

This statement provides information on changes in the amount and nature of equity for the 2006-07 Budget year.

Departmental capital budget statement

This statement shows all proposed capital expenditure on non-financial assets, whether funded through capital appropriations (equity or borrowings) or from internally sourced funds.

Departmental property, plant, equipment and intangibles — summary of movement

This statement shows the budgeted movement in the AOFM's non-financial assets during the budget year 2006-07.

Details of transactions administered by the AOFM on behalf of the Australian Government are shown in the following schedules to the financial statements.

Schedule of administered activity

Schedule of budgeted income and expenses administered on behalf of government

This schedule identifies the revenues and expenses administered by the AOFM on behalf of the Australian Government.

Schedule of budgeted assets and liabilities administered on behalf of government

This schedule shows the assets and liabilities administered by the AOFM on behalf of the Australian Government.

Schedule of budgeted administered cash flows

This schedule shows cash flows administered by the AOFM on behalf of the Australian Government, categorised into expected cash flows from operating activities, investing activities and financing activities.

Schedule of administered capital budget

This schedule shows all proposed capital expenditure on net debt management activities sourced from special appropriations.

Table 3.11: Schedule of administered property, plant, equipment and intangibles — summary of movement (Budget year 2006-07)

The AOFM does not have any administered property, plant, equipment or intangibles.

NOTES TO THE FINANCIAL STATEMENTS

Basis of accounting

The departmental financial statements have been prepared on an accrual basis and are in accordance with the historical cost convention, except for infrastructure, plant and equipment assets and employee entitlements. Infrastructure, plant and equipment assets are re-valued every three years using a fair value methodology. Employee entitlements are measured at the present value of estimated future cash flows based on periodic actuarial assessment.

The administered financial statements have been prepared on a fair value basis in accordance with Australian equivalents to international financial reporting standards, except for housing advances to the States and Northern Territory which are measured on an amortised cost basis. For 2005-06 housing advances were at fair value. Due to changes to AASB 139 *Financial Instruments: Measurement and Recognition*, housing advances are measured at amortised cost from 1 July 2006.

Fair value is synonymous with market value and represents the estimated exchange equivalent price using relevant inputs from reference markets and valuation techniques. Fair value is determined on the presumption of normal market conditions and that the reporting entity is not undertaking transactions on adverse terms.

On behalf of the Department of Communications, Information Technology and the Arts (DCITA), the AOFM currently oversees the investments made by the Communications Fund. These investments and their earnings are reported by DCITA and not the AOFM.

Budgeted departmental and administered financial statements

The budgeted financial statements contain estimates prepared in accordance with the requirements of the Australian Government's financial budgeting and reporting framework, including the principles of Australian Accounting Standards and Statements of Accounting Concepts, as well as specific guidelines issued by the Department of Finance and Administration.

Under the Australian Government's accrual budgeting framework, transactions that agencies control (departmental transactions) are separately budgeted for and reported from transactions agencies do not have control over (administered transactions). This ensures that agencies are only held fully accountable for the transactions over which they have control.

• Departmental assets, liabilities, revenues and expenses are those which are controlled by the agency. Departmental expenses include employee and supplier expenses and other administrative costs, which are incurred by the agency in providing its goods and services to government.

 Administered assets, liabilities, revenues and expenses are those which are managed on behalf of the Australian Government according to set government directions. Administered expenses include interest incurred on Commonwealth Government Securities. Administered revenues include interest earned on housing agreement loans, interest on investments and interest from swaps.

Administered internal transactions

Administered transactions between the AOFM and other agencies within the General Government Sector (administered internal transactions) are not reported in the schedule of budgeted administered income and expenses or the schedule of budgeted administered assets and liabilities.

However, for the purposes of disclosing all cash flows through AOFM's administered bank accounts, cash flows in the schedule of budgeted administered cash flows are reported inclusive of administered internal transactions.

Goods and services tax (GST)

Supplies provided by the AOFM are primarily input taxed under *A New Tax System* (Goods and Services Tax) Act 1999.

Appropriations in the accrual budgeting framework

Under the Australian Government's accrual budgeting framework, separate annual appropriations are provided to the AOFM for:

- departmental price of outputs appropriations: representing the Australian Government's purchase of outputs from the AOFM; and
- administered expense appropriations: for the repayment of interest on lapsed coupons not supported by special appropriation.

Special appropriations fund the majority of administered payments made by the AOFM, including debt redemption, interest payments and financial investment activity.

Budgeted departmental income statement

Appropriations

Price of outputs appropriation estimates are not based on market price indicators. The agreed price of outputs appropriation is generally adjusted for wage cost indexation less an efficiency dividend.

For financial years from 2006-07 to 2007-08 (inclusive), the government has imposed an additional 0.25 per cent efficiency dividend on agencies, bringing the efficiency dividend to 1.25 per cent for these financial years.

Budgeted departmental balance sheet

Cash and undrawn appropriations

The estimated cash reserves and undrawn appropriations will be maintained to ensure that the AOFM is well placed to:

- settle employee liabilities as they fall due;
- make asset replacements; and
- repay liabilities.

Budgeted financial statements have been prepared on the assumption that unspent monies will not be withdrawn by the Department of Finance and Administration.

Net market valuation gains

Net market valuation gains represents the estimated unrealised fair value gains on the net debt portfolio. This valuation gain represents the change in financial exposures due to changes in market conditions and the passage of time.

In a passive 'issue and hold to maturity' strategy, such as that relating to the AOFM's debt issuance and management activities, the revaluation effect will net to zero over the life of a financial instrument.

Administered schedule of budgeted assets and liabilities

Total receivables	2,985,461	2,781,698	2,679,951	2,586,023	2,492,015

¹ At fair value for 2005-06. At amortised cost from 1 July 2006.

Financial assets — investments

The AOFM, on behalf of the Australian Government, holds surplus funds as term deposits with the Reserve Bank of Australia. Estimates of the fair value of these asset holdings are disclosed as administered investments. The asset holdings of the Future Fund and other government agencies are not included in these estimates.

Interest bearing liabilities — Commonwealth Government Securities

Commonwealth Government Securities represent the fair value of government securities on issue.

² At fair value.

Total estimated expenses ³	67,265,972	70,469,429

¹ Refunds under section 16 of the *Tax Administration Act 1953* are primarily taxation refunds from revenue but may include amounts for the First Child tax offset, the Private Health Insurance Benefit, Fuel Tax Credits and interest on overpayments. In 2006-07 refunds include amounts previously reported under the Energy Grants (Credits) Scheme and Fuel Sales Grants Scheme.

² This represents the portion of the Family Tax Benefit administered by the Tax Office only.

³ The total amount showing for special appropriations differs to the amount shown in Figure 2 as it includes appropriations for taxation refunds from revenue. In Figure 2, taxation refunds are netted off against taxation revenue.

This special account is departmental in nature and is governed by the Financial Management and Accountability Act 1997.

² These special accounts are administered in nature and are governed by the Financial Management and

Accountability Act 1997.

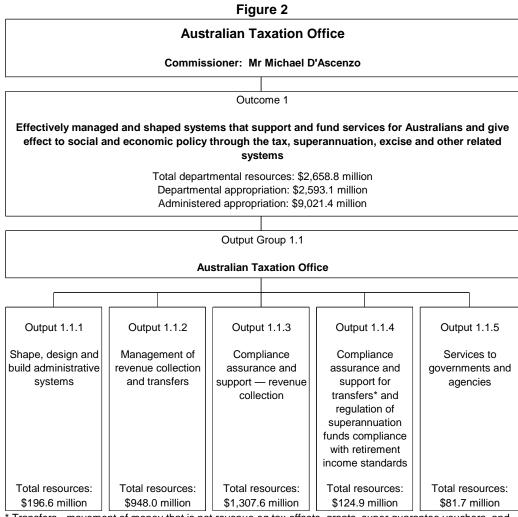

This special account is administered in nature and is governed by the Small Superannuation Accounts Act 1995.

Section 2: Revisions to agency outcomes

OUTCOMES, ADMINISTERED ITEMS AND OUTPUTS

Table 1.1 'Agency outcome and output group' lists the outcome and output group for the Australian Taxation Office (Tax Office).

The Tax Office has not made any changes to its outcome or outputs since the *Portfolio Budget Statements* 2006-07.

^{*} Transfers - movement of money that is not revenue eg tax offsets, grants, super guarantee vouchers, and benefits distribution.

Revised performance information — 2006-07

The Tax Office has not made any changes to its performance information since the *Portfolio Budget Statements* 2006-07.

Section 3: Budgeted financial statements

The budgeted departmental and administered financial statements and related notes for the Australian Taxation Office (Tax Office) are in this section. The financial statements are produced for 2005-06 (actual results), 2006-07 (revised budget estimate) and three forward years. The financial statements should be read in conjunction with the accompanying notes.

ANALYSIS OF BUDGETED FINANCIAL STATEMENTS

Budgeted departmental income statement

There has been no change to the Tax Office's 2006-07 budgeted operating surplus of \$0.6 million (as outlined in the *Portfolio Budget Statements* 2006-07).

Revenue

Total departmental revenue is estimated to be \$2,658.8 million. This consists of government appropriations of \$2,593.1 million and income from other sources of \$65.7 million. This represents an increase in government appropriations, from the *Portfolio Budget Statements* 2006-07, of \$57.4 million due to the new budget measures shown in Table 1.4.

Expenses

Total departmental expenses are estimated to be \$2,657.9 million. This consists of \$1,634.2 million in employee expenses, \$904.8 million in supplier expenses and \$118.9 million in depreciation/amortisation. The increase in expenses, from the *Portfolio Budget Statements* 2006-07, corresponds to the increase in total departmental revenue.

Budgeted departmental balance sheet

Equity

The estimated equity position of the Tax Office at the end of 2006-07 is negative \$26.5 million. This represents an increase in equity of \$14.8 million, from the 2005-06 actual results, due to equity injections in 2006-07 as shown in Table 1.6.

Assets

The Tax Office's assets are predominantly non-financial assets. In 2006-07 the Tax Office will continue to maintain its commitment to long term improvement, investing \$171.8 million in capital expenditure. This represents an increase of \$11.0 million, from

Agency Additional Estimates Statements – Tax Office

the *Portfolio Budget Statements* 2006-07, due to asset purchases associated with equity injections for new budget measures shown in Table 1.4.

BUDGETED FINANCIAL STATEMENTS

Departmental financial statements

Budgeted departmental income statement

This statement provides a picture of the expected financial results of the Tax Office by identifying full accrual revenues and expenses.

Budgeted departmental balance sheet

This statement shows the financial position of the Tax Office. It helps decision makers track the management of assets and liabilities.

Budgeted departmental statement of cash flows

This statement provides important information on the extent and nature of cash flows by categorising them into expected cash flows from operating, investing and financing activities.

Departmental statement of changes in equity — summary of movement

This statement provides details of changes in the amount and nature of equity balances for 2006-07.

Departmental capital budget statement

This statement shows the amount of planned capital expenditure, whether funded through capital appropriations or from internal resources.

Departmental property, plant, equipment and intangibles — summary of movement

This statement shows expected acquisitions and disposals of non-financial assets for 2006-07.

Schedule of administered activity

Schedule of budgeted income and expenses administered on behalf of government

This statement shows the main revenues and expenses administered by the Tax Office on behalf of the Australian Government. It also discloses administered revenues from government and transfers to the Official Public Account.

Schedule of budgeted assets and liabilities administered on behalf of government

This statement shows the assets and liabilities administered on behalf of the Australian Government.

Schedule of budgeted administered cash flows

This statement shows the cash flows administered on behalf of the Australian Government.

Table 3.10: Schedule of administered capital budget

The Tax Office does not have any administered capital.

Table 3.11: Schedule of administered property, plant, equipment and intangibles — summary of movement (Budget year 2006-07)

The Tax Office does not have any administered property, plant, equipment or intangibles.

NOTES TO THE FINANCIAL STATEMENTS

Basis of accounting

The budgeted financial statements have been prepared on an accrual basis.

Notes to the departmental statements

The departmental financial statements, included in Tables 3.1 to 3.6 have been prepared on the basis of Australian Accounting Standards and Department of Finance and Administration guidance for the preparation of financial statements.

The budget statements and estimated forward years have been prepared to reflect the following matters.

Australian Valuation Office

The Tax Office's budgeted financial statements are consolidated to include the financial operations of the Australian Valuation Office.

Cost of administering goods and services tax

Departmental statements include the estimated costs of administering the goods and services tax pursuant to the 'intergovernmental agreement on the reform of Commonwealth State Financial Regulations'. The GST revenue is collected on behalf of the States and Territories which agree to compensate the Australian Government for the agreed GST administration costs.

The recovery of GST administration costs are reported under the Treasury.

Administered

The administered financial statements included in Tables 3.7 to 3.9 have been prepared on the basis of Australian Accounting Standards.

The standards require that taxation revenues are recognised on an accrual basis when the following conditions apply:

- the taxpayer or the taxpayer group can be identified in a reliable manner;
- the amount of tax or other statutory charge is payable by the taxpayer or taxpayer group under legislative provisions; and
- the amount of the tax or statutory charge payable by the taxpayer or taxpayer group can be reliably measured, and it is probable that the amount will be collected.

The amount of taxation revenue recognised takes account of legislative steps, discretion to be exercised and any refunds and/or credit amendments to which the taxpayers may become entitled.

Recognition of taxation revenue

Taxation revenue is recognised when the Government, through the application of legislation by the Tax Office and other relevant activities, gains control over the future economic benefits that flow from taxes and other statutory charges – the Economic Transaction Method (ETM). This methodology relies on the estimation of the probable flows of taxes from transactions which have occurred in the economy, but not yet reported, and are likely to be reported, to the Tax Office through an assessment or disclosure.

However in circumstances when there is an 'inability to reliably measure tax revenues when the underlying transactions or events occur', the standards permit an alternative approach — the Taxation Liability Method (TLM). Under this basis, taxation revenue is recognised at the earlier of when an assessment of a tax liability is made or payment is received by the Tax Office. This recognition policy means that taxation revenue is generally measured at a later time than would be the case if it were measured under the ETM method.

In accordance with the above revenue recognition approach, the Tax Office uses ETM as the basis for revenue recognition, except for income tax for individuals, companies and superannuation funds and superannuation surcharge which are recognised on a TLM basis.

Items recognised as reductions to taxation revenue

The following items are recognised as reductions (increases) to taxation revenue and not as an expense:

- · refunds of revenue; and
- increase (decrease) in movement of provision for credit amendments.

Table 2.1: Performance information for outputs affected by additional estimates — outcome 1

Performance indicators for individual outputs **Output group 1.1: Productivity Commission**

Output 1.1.1 - Government commissioned

projects

Quality:

Projects of a high standard, useful to government, undertaken in accordance with

required processes and on time.

Quantity:

Capacity to undertake projects to the total price

of outputs.

Price: \$14.1 million

Output 1.1.2 - Peformance reporting and other

services to government bodies

Quality:

Reports of a high standard, useful to government, and completed on time.

Quantity:

Capacity to provide reports and services to the

total price of outputs. Price: \$4.7 million

Output 1.1.3 - Regulation review activities

Quality:

Regulation Impact Statement (RIS) and compliance cost assessments, consultation and associated activities of a high standard, advice useful to

government and on time.

Quantity:

Capacity to undertake RIS assessments and asociated activities to the total price of outputs.

Price: \$6.6 million

Output 1.1.4 - Competitive neutrality complaints

activities

Quality:

Competitive neutrality complaints successfully resolved within 90 days; associated activities of a high standard and useful to government.

Quantity:

Capacity to undertake activities to the

total price of outputs. Price: \$0.2 million

Output 1.1.5 - Supporting research and activities

and statutory annual reporting

Quality:

Reports, projects and associated activities of a high standard, useful to government, raising community awareness and on time.

Quantity:

Capacity to undertake research that supports the government's current and emerging policy agenda to the total price of outputs.

Price: \$6.7 million

Section 3: Budgeted financial statements

ANALYSIS OF BUDGETED FINANCIAL STATEMENTS

The budgeted financial statements will form the basis of the financial statements that will appear in the Productivity Commission's (the Commission) 2006-07 Annual Report and form the basis for the input into the whole-of-government accounts. The financial statements should be read in conjunction with the accompanying notes.

The budgeted financial statements contain estimates prepared in accordance with the requirements of the Australian Government's financial budgeting and reporting framework, including the principles of Australian Accounting Standards and Statements of Accounting Concepts, as well as specific guidelines issued by the Department of Finance and Administration.

BUDGETED FINANCIAL STATEMENTS

Additional funding is being provided to enable the Commission to implement aspects of the Government's regulation reform agenda, as outlined in the response to the report, *Rethinking Regulation: Report of the Taskforce on Reducing Regulatory Burdens on Business* and the Prime Minister and Treasurer's joint media statement of 12 October 2005.

The Commission continues to budget for a break-even operating result in 2006-07 and for the forward estimates.

The Commission does not have any administered activities.

NOTES TO THE FINANCIAL STATEMENTS

The financial statements have been prepared on an accrual basis in accordance with the historical cost convention, except for certain assets which are at valuation.

PORTFOLIO GLOSSARY

Accrual accounting System of accounting where items are brought to

account and included in the financial statements as they are earned or incurred, rather than as they are

received or paid.

Accumulated depreciation The aggregate depreciation recorded for a

particular depreciating asset.

Administered items Expenses, revenues, assets or liabilities managed

by agencies on behalf of the Australian Government. Agencies do not control administered items. Administered expenses include grants, subsidies and benefits. In many cases, administered expenses fund the delivery of

third party outputs.

Additional estimates Where amounts appropriated at Budget time are

insufficient, Parliament may appropriate more funds to portfolios through the Additional

Estimates Appropriation Acts.

Appropriation An authorisation by Parliament to spend moneys

from the Consolidated Revenue Fund for a

particular purpose.

Annual Appropriation Two Appropriation Bills are introduced into

Parliament in May and comprise the Budget for the financial year beginning 1 July. Further Bills are introduced later in the financial year as part of the additional estimates. Parliamentary

departments have their own appropriations.

Capital expenditure Expenditure by an agency on capital projects, for

example purchasing a building.

Consolidated Revenue Fund Section 81 of the Commonwealth of Australia

Constitution Act 1900 stipulates that all revenue raised or money received by the Commonwealth forms the one Consolidated Revenue Fund (CRF). The CRF is not a bank account. The Official Public Account reflects most of the operations of the CRF.

Account reflects most of the operations of the CRF.

Glossary

Departmental items

Assets, liabilities, income and expenses that are controlled by the agency in providing its outputs. Departmental items would generally include computers, plant and equipment assets used by agencies in providing goods and services and most employee expenses, supplier costs and other administrative expenses incurred.

Depreciation

Apportionment of an asset's capital value as an expense over its estimated useful life to take account of normal usage, obsolescence, or the passage of time.

Effectiveness indicators

Measures the joint or independent contribution of outputs and administered items to the achievement of their specified outcome.

Efficiency indicators

Measures the adequacy of an agency's management of its outputs (and where applicable, administered items). Includes price, quality and quantity indicators. The interrelationship between the three efficiency indicators of any one output should be considered when judging efficiency.

Equity or net assets

Residual interest in the assets of an entity after deduction of its liabilities.

Expense

Total value of all of the resources consumed in producing goods and services or the loss of future economic benefits in the form of reductions in assets or increases in liabilities of an entity.

Fair value

A valuation methodology whereby the amount for which an asset could be exchanged, or a liability settled, between knowledgeable and willing parties in an arm's length transaction. The fair value can be affected by the conditions of the sale, market conditions and the intentions of the asset holder.

Operating result

Equals income less expense.

Outcomes

The Government's objectives in each portfolio area. Outcomes are desired results, impacts or consequences for the Australian community as influenced by the actions of the Australian Government. Actual outcomes are assessments of the end-results or impacts actually achieved.

Output groups

A logical aggregation of agency outputs, where useful, and based either on homogeneity, type of product, business line or beneficiary target group. Aggregation of outputs may also be needed for the provision of adequate information for performance monitoring, or based on a materiality test.

Outputs

The goods and services produced by agencies on behalf of government for external organisations or individuals. Outputs also include goods and services for other areas of government external to the agency.

Price

One of the three key efficiency indicators. The amount the government or the community pays for the delivery of agreed outputs.

Quality

One of the three key efficiency indicators. Relates to the characteristics by which customers or stakeholders judge an organisation, product or service. Assessment of quality involves use of information gathered from interested parties to identify differences between user's expectations and experiences.

Quantity

One of the three key efficiency indicators. Examples include: the size of an output; count or volume measures; how many or how much.

Revenue

Total value of resources earned or received to cover the production of goods and services.

Glossary

Special Account

Balances existing within the Consolidated Revenue Fund (CRF) that are supported by standing (Financial appropriations Management Accountability Act 1997 (FMA Act), subsection 20 and 21). Special accounts allow money in the CRF to be acknowledged as set-aside (hypothecated) for a particular purpose. Amounts credited to a Special Account may only be spent for the purposes of the Special Account. Special Accounts can only be established by a written determination of the Minister for Finance and Administration (section 20 FMA Act) or through an Act of Parliament (referred to in section 21 of the FMA Act).

Special Appropriations (including Standing Appropriations)

An amount of money appropriated by a particular Act of Parliament for a specific purpose and number of years. For special appropriations the authority to withdraw funds from the Consolidated Revenue Fund does not generally cease at the end of the financial year.

Standing appropriations are a sub-category consisting of ongoing special appropriations — the amount appropriated will depend on circumstances specified in the legislation.
